After studying in General English, I decided I wanted to take the FCE course. Extreme English was the perfect stepping stone and it really helped me prepare for FCE. Although these courses were challenging and intensive, I enjoyed it very much and felt

that it was the best decision I had ever made. My English improved so much and I could express my opinions and communicate so much more fluently. I like the flexible course structure and found the most suitable classes to help me achieve my goal!

I came to Australia to improve my English and to have a working holiday experience. I couldn't decide which city so Impact was the perfect choice because I could study in both Brisbane and Melbourne. After moving to

Melbourne, I fell in love with the cafés and wanted to become a barista. The Barista course and Kickstart program really helped me understand the hospitality industry and gave me the experience I needed to find a job in a café!

I studied at Impact for six months and the IELTS course helped me achieve the score that I needed to get into a university in Australia! My teachers were very passionate and knowledgeable and constantly gave me feedback on my progress. Because of the
