Building Your Degree in **ARTS AND SCIENCE**

ARTS: From courses that explore ancient humour to ones that define “race” and racism; to international opportunities such as studying Cuban Culture and Society in Cuba, or Venice Biennale in Venice; to career-focused experiential courses like the Queen’s Archives Internship – obtaining an Arts degree (BAH) from Queen’s is as unique as you are.

SCIENCE: From courses that explore oceanography to quantum mechanics to climate change; to hands-on field studies at the Queen’s University Biological Station (QUBS) on Lake Opinicon or the deep underground laboratory called SNOLAB that studies dark matter and dark energy; to certificates such as the Geographic Information Science (GIS) to top up your degree – obtaining a Science degree (BScH) from Queen’s is as impressive as you are.

**Why not add a
CERTIFICATE
to your degree!**

See page 58
for information

Why Study ARTS AND SCIENCE at Queen’s?

As a student in Arts, Science, or Computing you benefit from a general first year*. While you settle into university life, you have the chance to self-explore and work with our advisors and faculty to uncover your real interests and opportunities for success. Sometimes that discovery happens quickly, and other times it takes some work before the “ah-ha!” happens – either way your first year will be a great experience at Queen’s.

*Students in Kinesiology, Fine Art, Music, and Music Theatre do not participate in the general first year as they are automatically enrolled in their first-year courses. We often refer to these programs as Direct Entry.

Internships

Internships are a great way to learn by doing at Queen’s in Arts and Science. You can complete a 12-16 month paid, professional internship that tops up your degree with hands-on experience.

BY THE numbers

178 disciplines of study

2,600+ degree options

32 departments and schools

Computing

Work with and **be inspired** by **award-winning researchers** during your undergraduate studies

Work in one of our many research labs on **cutting-edge** projects, such as wearable or drone technology

Participate in the annual Hackathon and work with fellow **out-of-the-box** thinkers, creators, and innovators

queensu.ca/artsci/computing

Degree: Bachelor of Computing, Honours

What's your Passion?

- Biomedical Computing
- Computing and the Creative Arts
- Cognitive Science
- Computing and Mathematics
- Computing
- Computer Science
- Software Design

Learn by Doing

Students interested in Computing have the opportunity, both through the school year and in the summer, to work in one of the many research labs in the School on cutting-edge projects. Students working in labs, can choose to publish papers from their work and present their findings at conferences or the annual Creative Computing Showcase.

Internships are also a great way to learn by doing. Students can complete a 12-16 month, paid, professional internship with a top employer. Enhance your resume and gain academic credit while doing so, with employers such as IBM or E.A. Sports

Computing

Bachelor of Computing, Honours (BCmpH)
OUAC Code: QD

BIOMEDICAL COMPUTING

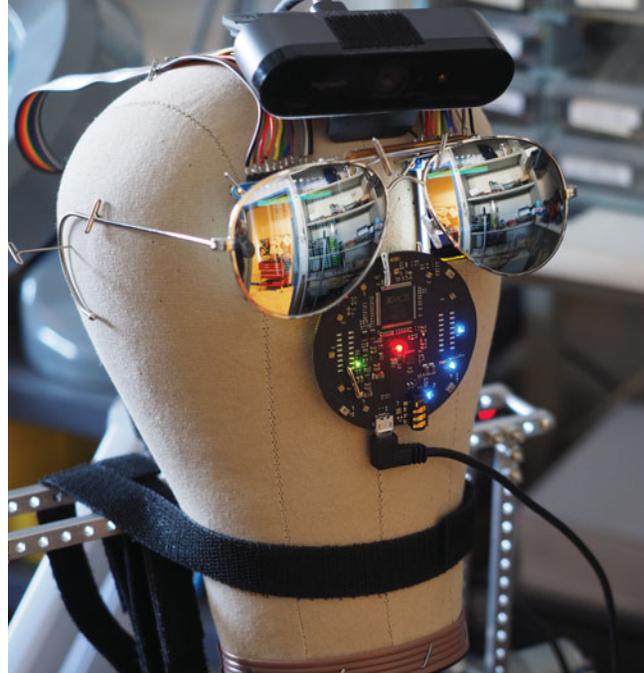

Queen's was the pioneer in undergraduate Biomedical Computing, one of today's most promising fields in health research. Biomedical Computing goes far beyond simply bringing computers into the lab. The ways in which computers can improve health care are almost limitless. Computers are used to plan surgeries, simulate patient behaviour, and visualize complex biological models. They shorten the cycles for medical research, just as they extend its boundaries. Courses in this multi-disciplinary program include Computer-Integrated Surgery, Genetics, Computational Biology, Biochemistry, Physiology, Artificial Intelligence, and Software Development. Students looking for more flexibility in their degree may want to consider the Biomedical Computation option of the Computing major.

COGNITIVE SCIENCE

Computers can play chess – could they one day diagnose illnesses or write symphonies? These are questions explored in our Cognitive Science program. Cognitive scientists are probing the concept of intelligence in humans and animals – trying, indeed, to define it – in order to program intelligent computers that are not only capable of performing complex tasks, but of thinking complex thoughts. Drawing on psychology, philosophy, linguistics, neuroscience, and computing, this ambitious, far-ranging program explores the science of the mind and thought. Students looking for more flexibility in their degree may want to consider the Artificial Intelligence option of the Computing major.

COMPUTER SCIENCE

Computer science explores the science and principles that underlie computing. The program offered at Queen's provides broad training in the field, along with the opportunity to focus on specific areas such as artificial intelligence, human-computer interaction, computing theory, and programming languages.

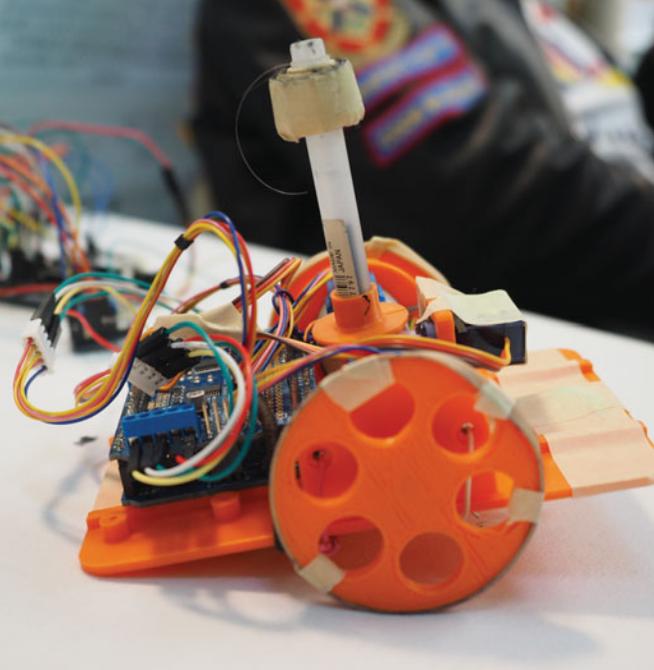

Students looking for more flexibility in their degree may want to consider the Fundamental Computation option of the Computing major.

This program has been accredited by the Canadian Information Processing Society (CIPS), which lets you apply for accelerated accreditation as an Information Systems Professional.

COMPUTING

The field of computing is pervasive – it touches almost every industry. There is a greater demand for technical skills in today's job market; which is why we offer a computing major that allows you to combine a minor in any subject and choose from 5 cutting-edge disciplinary subjects in computing:

- Artificial Intelligence
- Biomedical Computation
- Data Analytics
- Fundamental Computation
- Game Development

COMPUTING AND MATHEMATICS

The specialization in Computing and Mathematics is for students aiming to do graduate work in the theory of computing or in an applied area of Computing that requires significant mathematical expertise, such as communications, optimization, security, or biomedical computing. This program gives students a potent combination of skills in computer science as well as mathematics, preparing them well to pursue advanced degrees or take up careers in a variety of areas in the industry.

SOFTWARE DESIGN

The School of Computing's Software Design program is for those destined to push the capabilities of computer systems beyond their current limits. Mentored in the art and science of computer software architecture, analysis, and evolution by experts in Ultra-Large Scale Software Systems and Gaming research, our graduates become the software architects, graphics and game developers, designers, and entrepreneurs who drive the software revolution.

The program has been accredited by the Canadian Information Processing Society (CIPS), which lets you apply for accelerated accreditation as an Information Systems Professional.

COMPUTING AND THE CREATIVE ARTS

Bachelor of Arts, Honours (BAH)
OUAC Code: QA

This innovative degree is aimed at students with interests and abilities in both computing and the creative arts. Students who enrol in this program take courses offered by Art History, Drama, Film and Media, or Music, while maintaining a solid concentration in Computer Science. Learn how to use cutting-edge computer software programs for artistic production, develop new approaches to artistic expression, and acquire the technical expertise to develop new applications and take full advantage of future trends in digital technology. Imagine interactive fashion, multi-screen performance, or digital art galleries of the future.

Consider a Certificate in French for Professionals or Entrepreneurship, Innovation, and Creativity to round out your studies.

See pages 58-61 for information

Creative Arts

Join a music ensemble, **volunteer** at an on-campus art gallery, or **intern** with the Kingston Canadian Film Festival

Develop skills as writers, cultural commentators, journalists, and creative communicators

Work on a play for a **live audience** or help host a student **art exhibition**

Degree: Bachelor of Fine Art, Honours
 Bachelor of Arts, Honours
 Bachelor of Music, Honours
 Bachelor of Music Theatre, General

What's your Passion?

- Music
- Drama
- Film and Media
- Fine (Visual) Arts
- Music Theatre
- Media and Performance Production
- Computing and the Creative Arts

Learn by Doing

Queen's offers students many opportunities to showcase their work in media, performance, and visual art through exhibitions, screenings, recitals, and theatrical performances. You can join a music ensemble or audition for a play or musical, volunteer at the Union Gallery, browse the magnificent art collections at the Agnes Centre, or perhaps undertake an internship with the Kingston Canadian Film Festival.

Thinking about internationalizing your degree? Head to the Bader International Study Centre in East Sussex and take part in a three-week field school in Medieval Theatre Studies.

Creative Arts

Bachelor of Arts, Honours (BAH)
OUAC Code: QA (Kingston Campus)
QIA (Bader International Study Centre Campus)

Also available with Concurrent Education
OUAC Code: QB (Kingston Campus)
QIB (Bader International Study Centre Campus)

COMPUTING AND THE CREATIVE ARTS

This innovative degree is aimed at students with interests and abilities in both computing and the creative arts. Students who enrol in Computing and the Creative Arts take courses offered by Art History, Drama, Film and Media, or Music, while maintaining a solid concentration in Computer Science. You can also fill out your degree with electives in other Arts areas and interdisciplinary courses of all kinds. Learn how to use cutting-edge computer software programs for artistic production, develop new approaches to artistic expression, and acquire the technical expertise to develop new applications and take full advantage of future trends in digital technology.

DRAMA

Acting, directing, playwriting, technical production, theatre history, dramatic literature, dance, movement, singing, education – the Dan School of Drama and Music does it all. A well-rounded program designed to equip resourceful thinkers with the communication, collaborative, and leadership skills that will enable them to excel in any field they choose. A key part of Drama at Queen's is the enormous range and number of opportunities offered by many exciting productions, both on-stage or backstage, as directors, writers, designers or producers. If you are interested in music you will find drama and music students collaborating often and coming together in new music theatre courses. Courses and productions are mainly held in the state-of-the-art Isabel Bader Centre for the Performing Arts, one of the newest buildings at Queen's, and in Theological Hall, one of the oldest, and one of the most dramatic buildings on campus. In the summer, try out for The Barefoot Players, Queen's children's theatre company, or take courses that are taught in residence at the Shaw Festival in Niagara-on-the-Lake. You can also study theatre of the Middle Ages and participate in a Medieval Festival at the very oldest of Queen's University's buildings: the fifteenth-century Herstmonceux Castle in England.

FILM AND MEDIA

With a focus on critical thinking, our students examine a wide variety of cinema, video, and media – including social media – in order to better understand, and contribute to, contemporary visual culture. Our program integrates this material with courses in history, theory, and criticism that include such diverse topics as digital media theory, Hollywood cinema, non-Western cinema, experimental film and animation, performance and cultural studies, the business of media, and much more. We also offer instruction in video production, open media production, animation, scriptwriting, cross-platform, as well as contemporary digital media, because we believe that knowledge of film and media is deepened through hands-on experience in producing it. Located at the beautiful Isabel Bader Centre for the Performing arts, the facilities include a soundstage, audio recording and mixing studio, digiLab computing facility, and 90-seat screening room.

MEDIA AND PERFORMANCE PRODUCTION

Combining courses from Film and Media, along with Drama, Media, and Performance is ideal for students interested in exploring both these fields and in drawing together the lessons to be learned in each. Scholarly and hands-on in approach, the program offers instruction in the theoretical and historical dimensions of the two art forms, and gives students the chance to undertake practical work in each discipline. Every year, the program invites a director, writer, or other notable professional working in theatre, film, or television to come to Kingston as our Media and Performance Visiting Artist. Students have an opportunity to work with and take classes from this distinguished artist who, in addition to sharing experiences, also gives a presentation for a broader Queen's and Kingston audience.

MUSIC

Bachelor of Music (BMus)

OUAC Code: QM

Bachelor of Arts, Honours (BAH)

OUAC Code: QA (Kingston Campus)

QIA (Bader International Study Centre Campus)

Also available with Concurrent Education

OUAC Code: QMM

Focusing on undergraduate studies, Queen's Music has earned a reputation across Canada for producing some of the best-prepared graduates: musicians who excel as scholars, composers, teachers, and performers. Students in the Dan School of Drama and Music obtain a solid education in western classical music from the ancient to the postmodern, while pursuing a wide variety of courses in applied study (performance), musicology/ethnomusicology, music education, and theory and composition. A highlight for music students is the chance to practice and perform in the fantastic Rehearsal Hall and Concert Hall of Queen's Isabel Bader Centre for the Performing Arts.

Recently we launched a new, and unique, combined five-year program held in conjunction with St. Lawrence College. Students entering the program will be working towards a Bachelor degree in Music and a diploma in Music and Digital Media. This exciting cooperative venture will let students learn theory and performance while gaining practical skills and useful experience.

INTERESTED IN ENHANCING YOUR DEGREE WITH A CERTIFICATE?

Check out pages 58-61 for programs in **Media Studies, Sexual and Gender Diversity, Employment Relations and more!**

MUSIC THEATRE

Bachelor of Music Theatre (BMT)

OUAC Code: QMT

A new program designed to provide aspiring musical theatre professionals with both academic study and practical training in three core disciplines of acting, singing, and dance. This unique "triple threat" program will allow students to hone their skills by performing in front of audiences, in studio, on main stage productions, and in unique productions where students learn to create and produce original theatrical pieces. Students will also receive mentoring from faculty and guest industry professionals to become competent and job-ready for a competitive and rapidly changing industry. Students complete the first two years of the program at St. Lawrence College, Brockville campus and their final two years of the program at Queen's University in Kingston.

FINE ART (VISUAL ART)

Bachelor of Fine Art, Honours (BFAH)

OUAC Code: QT

Also available with Concurrent Education

OUAC Code: QTT

As a Fine Art (Visual Art) student at Queen's, you will be part of a small group of 30 students benefiting from intensive training in painting, printmaking, sculpture and new media/installation. Located in Queen's venerable Ontario Hall, the program's well-equipped studios and workshops create an atmosphere where learning and creativity can flourish. Our courses are taught by instructors active in their field, and supported through insight into the practices of visiting artists from across the country. Along with an internationally-renowned artist in residence and courses in Art History and the liberal arts, our program provides a broad spectrum of approaches and experience. It isn't all about classrooms or studios: Fine Art students make frequent field trips to exhibitions and workshops, including annual trips to New York and Massachusetts.

Humanities

A photograph of several students in a classroom or study hall. In the foreground, a young man with dark hair is looking intently at a book or document. Behind him, another student is pointing at something on the page. To the right, a third student is partially visible, also looking at the materials. The background shows a blurred classroom environment with a window and a chalkboard.

Humanities is the **oldest discipline** taught at the university

Small class sizes allow a more **personalized** experience from **world-class** professors

Pack your bags and head to Summer School in Venice or take part in an excavation project in Italy or North Macedonia

Learn by Doing

There are many ways to learn by doing with the Humanities, some internationally and some right here on campus. The Department of Art History offers an annual Summer School in Venice, focused on the Venice Biennale, or the Department of Classics hosts two international excavation projects in such places as Italy (Caere) and North Macedonia (Stobi). Staying on campus? The Department of English welcomes a well-known author to act as a writer in residence for one term each year. This writer participates in a range of literary events on campus and offers advice and mentorship to students involved in creative writing.

QIB (Bader International Study Centre Campus)

ART HISTORY

Encompassing global art traditions from prehistory to the present, our courses explore how visual and material culture have shaped human societies across time and around the world. Course topics range from the scientific study of artists' materials and techniques to cultural heritage preservation, Renaissance sculpture to Inuit printmaking, Baroque painting to Victorian textiles. Our students have many opportunities for first-hand engagement with art and architecture outside the classroom, including seminars in Venice, Italy, or our Castle in England, experiences at the Agnes Etherington Art Centre on the campus, and internships at local archives, libraries, and galleries. Students go on to diverse careers and graduate programs including our Master's in Art conservation, the only one of its kind in Canada.

CLASSICS

It can be said that studying Classics leads to a wider appreciation of human values and achievements, and a more objective understanding of ourselves and our times. Multidisciplinary in approach, it involves the studies of history, literature, archaeology, religion, mythology, drama, and philosophy, in addition to the ancient languages of Greek and Latin. Today our understanding of Greek and Roman culture is further enhanced by the latest advances in technology that increasingly pervade studies in archaeology, epigraphy, papyrology, and ancient science and medicine. Outside the classroom, Classics students have the opportunity to get hands-on experience in the latest techniques by participating in one of two archaeological excavations supervised by our own faculty.

ENGLISH LANGUAGE AND LITERATURE

When you study English Literature at Queen's you will learn to read perceptively, analyze clearly, and above all communicate effectively. Students explore the literary canon, including writers such as Shakespeare, Austen, and Brontë, but also engage with current forms such as graphic novels and works by contemporary writers. Queen's English encourages an eclectic approach to the subject: combining attention to methodology and core knowledge with the flexibility to support individual passion. English at

Queen's is structured to ensure that in each year of your program you will have classes small enough to make your voice heard and where you will not get lost in the crowd. Along the way you will develop research skills and expertise in analysis and written expression. Those interested in creative writing have the option of including workshop seminars where they can hone their craft.

FILM AND MEDIA

With a focus on critical thinking, our students examine a wide variety of cinema, video, and media – including social media – in order to better understand, and contribute to, contemporary visual culture. Our program integrates this material with courses in history, theory, and criticism that include such diverse topics as digital media theory, Hollywood cinema, non-Western cinema, experimental film and animation, performance and cultural studies, the business of media, and much more. We also offer instruction in video production, open media production, animation, scriptwriting, cross-platform, as well as contemporary digital media, because we believe that knowledge of film and media is deepened through hands-on experience in producing it. Located at the beautiful Isabel Bader Centre for the Performing arts, the facilities include a soundstage, audio recording and mixing studio, digiLab computing facility, and 90-seat screening room.

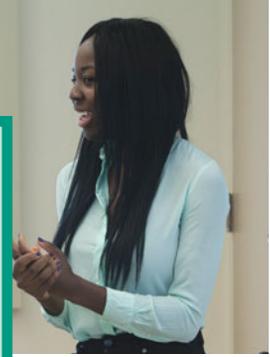

HISTORY

The study of History will help you sharpen your skills of analysis, discussion, research, and writing – all while critically exploring the roots of contemporary societies throughout the world. Thanks to the department's intellectual breadth, students of history at Queen's can explore a broad menu of topics, with subjects as diverse as the Crusades, slavery and race relations, First Nations history in the Americas, the Russian Revolution, the problems of 20th century Canadian unity, the economic development of Africa, and the perception and treatment of women in North America. As well, our seminar-based undergraduate program offers something hard to find these days – small classes that promote lively exchanges where students and instructors discuss what they have read, what they think, and what they really believe.

Certificate Programs can make you more competitive in the job market by expanding your credentials.

Check out pages 58-61 for programs in Urban Planning or Indigenous Languages and Cultures.

JEWISH STUDIES

Jewish civilization has a history reaching back 4,000 years, during which it interacted with much of world history, especially in Europe and the Middle East. At Queen's, survey and advanced courses in Jewish history and culture enhance a History degree, round out a program in humanities or social sciences, or complement work in science or creative arts.

Students from all backgrounds take courses in Jewish Studies, and the program is especially committed to the dialogue courses, co-taught with Muslim, Arab, and Palestinian scholars in order for students to be engaged with different narratives about historical and contemporary events.

LANGUAGES, LITERATURES AND CULTURES (LLCU)

Learning a language and gaining cultural awareness prepares students to travel, live, or work internationally and is helpful even here at home in modern Canada's multicultural environment.

Queen's LLCU offers language courses in:

Anishinaabemowin, Arabic, Chinese, German, Hebrew, Inuktitut, Italian, Japanese, Mohawk, Portuguese, and Spanish.

On top of studying languages at Queen's, students can choose to be broader in scope and major in Languages, Literatures and Cultures – a new discipline of study that offers a broad range of language and non-language courses focused on cultures around the globe. Gaining an international perspective will serve graduates well in our globalized world.

This multidisciplinary program offers students the opportunity to develop and acquire a global perspective to further their understanding of world culture in its complexity and diversity. Students can also spend a semester in Shanghai studying in English at Fudan University.

PHILOSOPHY

Philosophy, according to Plato, concerns itself with the good, the true, and the beautiful. Grappling with life's big questions, it also provides students with critical thinking skills to uncover hidden assumptions, identify core premises, and evaluate arguments. We offer courses that span the

history of philosophy from the ancients to contemporary thinkers, and others that cover broad philosophical topics – ethics and aesthetics, and metaphysics, and the nature of truth. And students get to “think philosophically” about a wide range of other topics, too – like feminism, the environment, and social diversity, to name just three. Through reading, writing, and class discussion, students in Philosophy gain powerful analytic and interpretive skills they will continue to use in whatever they do in life.

POLITICS, PHILOSOPHY, AND ECONOMICS

Study social issues and how our society responds to these issues, while asking questions drawn from economic, political, and philosophical perspectives. Society faces challenges that are complex and multidimensional, and our efforts to tackle these challenges require us to bring complementary intellectual skills together using multi-disciplinary analytical and critical approaches. This program combines Economics, Philosophy, and Politics in ways designed to prepare students to enter graduate studies in their area of specialization, as well as law, public service, international development, policy design and analysis, or any other career that calls for strong analytical and communication skills.

RELIGIOUS STUDIES

Religion plays a major role in shaping and influencing various cultures and historical and political movements across the globe. Understanding religious traditions and their impact on diverse modern issues is vital preparation for building a career in the global marketplace.

At Queen's our approach to the study of religion is multicultural, diverse, multi- and interdisciplinary. Our courses look at religion in a variety of interesting ways – Religion and Violence, Religion and Sport, Mythology of the Ancient Near East, Religion and Sex, Yoga in India and the West, Religion and the Environment, and Religion and Film. At the same time, the program offers students the opportunity to study in-depth such traditions as Hinduism, Islam, Daoism, Christianity, Buddhism, Judaism, and Indigenous Traditions of North America. Students learn how to investigate and assess the impact of religion in today's world, critically examine complex ideas, and enhance their intercultural literacy.

Languages and Cultures

Learn in state-of-the-art **active learning rooms** designed to foster cooperative learning and interaction

Begin to understand complex cultural perspectives and **think critically** about the world in which we live

FRENCH STUDIES

Studying French creates a wide range of opportunities, especially in Canada. The Department of French Studies offers undergraduate students interested in pursuing the subject in-depth the chance to study French as either a minor, a medial, or a major. We also offer courses for the complete beginner and Certificates of Competencies for students not registered in a French Plan. Courses offered include oral and written French as well as literature and culture. For interested students, it is also possible to study French in either Quebec or France on exchange (full-year, half-year and summer terms).

LANGUAGES, LITERATURES, AND CULTURES (LLCU)

Learning a language and gaining cultural awareness prepares students to travel, live, or work internationally and is helpful even here at home in modern Canada's multicultural environment.

Queen's LLCU offers language courses in:

Anishinaabemowin, Arabic, Chinese, German, Hebrew, Inuktitut, Italian, Japanese, Mohawk, Portuguese, and Spanish.

On top of studying languages at Queen's, students can choose to be broader in scope and major in Languages, Literatures, and Cultures – a new discipline of study that offers a broad range of language and non-language courses focused on cultures around the globe. This multidisciplinary program offers students the opportunity to develop and acquire a global perspective to further their understanding of world culture in its complexity and diversity. Students can also spend a semester in Shanghai studying in English at Fudan University.

LINGUISTICS

There are three aspects to Linguistics: language form, language meaning, and language in context. Linguistics is a scientific study of a language that explores the structure of language and how it is acquired. Linguistics students explore how a language is structured, how it is used in the production and comprehension of messages, and how language changes over time. You will try to answer questions relating to the nature of language, such as what do all languages have in common, or how do children learn a language? Linguistics is a highly interdisciplinary study with connections to Philosophy, Psychology, Computer Science, Cognitive Science, and Health Sciences.

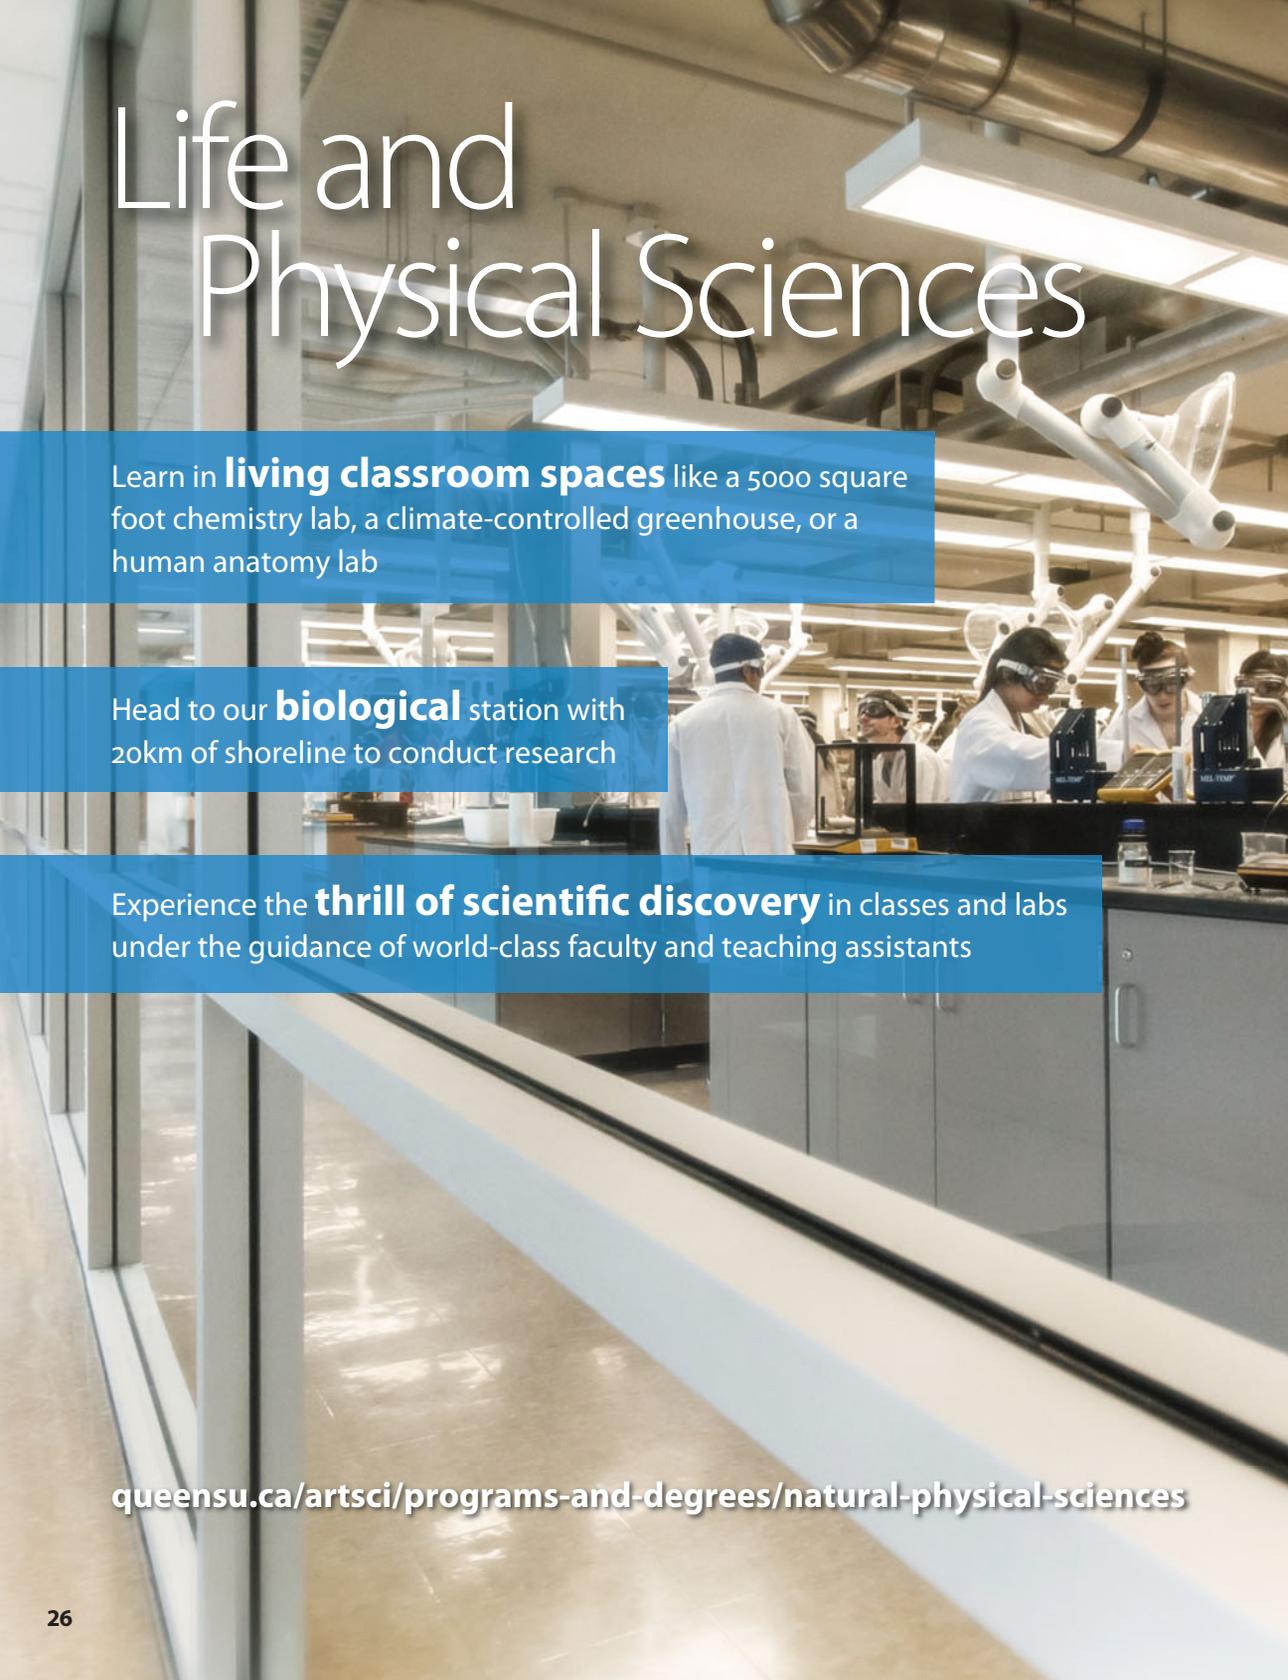

Get ready for your career with a Certificate Program.

Learn by Doing

Queen's boasts several top-flight research laboratories, some of which you'll become very familiar with as you pursue your studies in the sciences. Whether it's the state-of-the-art chemistry labs, the climate-controlled greenhouse zones, 26 environmental growth chambers, a prep room, and a human anatomy lab, students will be immersed in living classrooms. Third-year students in the School of Kinesiology and Health Studies can participate in a research internship in which they will work alongside graduate students in active research labs.

Life and Physical Sciences

Bachelor of Science, Honours (BSCH)

OUAC Code: QS (Kingston Campus)

QIS (Bader International Study Centre Campus)

Also available with Concurrent Education

OUAC Code: QF

BIOCHEMISTRY

Biochemistry explores the structures and chemical processes of molecules in living organisms that interact to form cells, tissues, and whole organisms. The Bachelor of Science degree program in Biochemistry at Queen's is led by scientists whose research interests span a wide range of important topics, including the mechanisms of cancer progression, cellular communication, and the molecular and chemical basis of infection, inheritance, and disease. The courses that these faculty have developed provide a basis for understanding practical advances that are emerging in medicine, agriculture, and biotechnology. They also provide opportunities for students to explore rapidly expanding fields in molecular genetics, bioengineering, and structural genomics through hands-on training with professors in research labs.

BIOLOGY

Biology is the science of life. It covers subjects ranging from the origin and evolution of life to the form and function of organisms, from the effects of climate change and the conservation of biodiversity to the ongoing revolution in "omics" – the exploding field that includes genomics and a host of other disciplines dedicated to studying the makeup and behaviour of cells at the molecular level. Biology at Queen's emphasizes interactive learning with hands-on laboratories, small senior seminar modules and field courses at the internationally recognized Queen's University Biological Station (QUBS). Our department also offers opportunities for field study around the globe – from Argentina to Africa. We offer students the flexibility to sample areas of interest within the broad scope of Biology or specialize in fields such as Biotechnology, Biology and Math, or Biology and Psychology.

BIOTECHNOLOGY

Biotechnology works with living organisms and other biological systems to help us improve our lives by discovering new drugs, improving crop production, and helping to develop novel forms of sustainable energy. First-year students at Queen's will have the chance to focus their studies on this exciting and important discipline in a Biotechnology specialization.

Recognizing the interdisciplinary nature of Biotechnology, the program encourages students to take courses from several departments at Queen's, everything from law to civil engineering to chemistry to biomechanical and molecular sciences. There is also an option to combine this degree with a diploma in Biotechnology from St. Lawrence College. The program has a strong emphasis on laboratory based learning during both the diploma and the degree portions of the program. Combined with the technical training of a college diploma, these students will graduate with a unique set of skills.

CHEMISTRY

Frequently called the central science because it provides the basis for studies in many other disciplines ranging from biology to materials science, Chemistry explores the composition, structure, and transformation of matter. The Queen's Department of Chemistry is regarded as one of the best in Canada for both teaching and research. Our aim is to offer a stimulating learning environment for undergraduate students, primarily through participating in engaging, practical laboratory work. In upper years, depending on their interests, undergraduate students can specialize in one of the more fundamental branches of the discipline, such as analytical, inorganic, organic, physical, or theoretical chemistry. Others may choose to explore newer applications, such as environmental, materials, biological, computational, or polymer chemistry.

ENVIRONMENTAL SCIENCE

Society has become more aware of the seriousness of the environmental problems we face. Yet, at the same time, we have realized that the solutions are not simple. To work towards environmental sustainability, people need to understand the scientific basis of environmental problems. They also need to have expertise in planning, policy, and other fields to deal with the social, economic, and cultural complexities that surround them.

Environmental Science at Queen's takes an innovative approach to environmental education. Our faculty are drawn from a wide variety of backgrounds – biology, chemistry, geography, geological sciences, economics, history, and policy studies, to name but a few – and they can offer students a truly multidisciplinary perspective on the challenging environmental problems facing humanity today.

WANT TO ENHANCE YOUR DEGREE WITH A CERTIFICATE?

See pages 58-61 for more information on Global Action and Engagement, Geographic Information Science, and more!

Life and Physical Sciences

Bachelor of Science, Honours (BSCh)
OUAC Code: QS (Kingston Campus)
QIS (Bader International Study Centre Campus)

Also available with Concurrent Education
OUAC Code: QF

GEOGRAPHY AND PLANNING

Geography can be defined as the integrated study of the Earth's places, societies, environments and landscapes. Among academic disciplines, Geography is unique in combining the social sciences and humanities with the physical sciences.

In physical geography, or earth system science, we study natural processes, their interactions, as well as natural and human-generated environmental issues, such as climate change.

In addition to a science concentration in Geography, the department offers students the option of earning a certificate in Geographic Information Science and/or Urban Planning Studies. Undergraduate students can also pursue a fast-track professional master's degree in Urban and Regional Planning with a focus on Environmental Planning.

GEOLOGICAL SCIENCES

What is Geological Sciences? The discovery and development of water, mineral, and energy resources – and their sustainability – are a key part of it. But so is coping with climate change, the human impact on our world, and the natural hazards facing a growing global population. These all depend on a deep understanding of natural processes.

We are one of the largest, dedicated Geology departments in Canada. Study Geological Sciences at Queen's and you'll be working with the top professors in their field in small group settings, using state-of-the-art facilities – an X-ray Diffraction and Clay Mineral Lab, a Computational Geomechanics Lab, and a Stable Isotope, to name a few.

You will also have many opportunities to apply the knowledge and skills gained in the classroom in real-world settings. Most students in the department complete more than 240 hours on field trips, and second- and upper-year courses including several extended trips to Quebec, Sudbury, and Bermuda. The experience you gain will help you secure employment during the summer months and after graduation.

KINESIOLOGY

Bachelor of Science, Honours (BSCh)
OUAC Code: QK

Kinesiology is the science of the human body in motion. From the structure of the cell to the structure of society, your studies in Kinesiology will expose you to the complex factors that influence health and wellness. Through lab courses in exercise physiology, biomechanics and ergonomics, physical activity counselling, and clinical fitness assessment, you will learn about the physiological and biomechanical factors that influence human movement, exercise and sport performance, and health.

You will think critically about the sociology of sport and physical activity and the positive and negative ways that these cultural, political and social phenomena impact our daily lives. Kinesiology also offers its students multi-year 'mini-stream' practicums – in athletic therapy, strength and conditioning, as well as a certificate in Disability and Physical Activity. Students may also choose community-based and research-based practicums in third year.

LIFE SCIENCES

The unique group of scientists and faculty involved with Life Sciences at Queen's share a common goal: to lessen the impact of disease and trauma by training the next generation of health care scientists and professionals.

One of the largest Bachelor of Science degree programs at Queen's, Life Sciences is in high demand by students who wish to pursue careers in biomedical research and health care.

The program works closely with the Cancer Research Institute, Centre for Neuroscience Studies and Cardiac Circulation and Respiratory Group at Queen's offering third- and fourth-year students the opportunity to specialize in trans-disciplinary topics. These specializations include: Cancer Research, Cardiorespiratory Science, Drug Development and Toxicology, Neuroscience and Reproduction, and Development Research.

MATHEMATICS AND STATISTICS

Mathematics and Statistics open new ways of looking at the world. Mathematicians discover and study structures that are fascinating in themselves and that have a surprising ability to help us make sense of many facets of the world: the physical, the biological, the economic, the artistic, the psychological, and the philosophical. By designing and analyzing mathematical models we increase our understanding of natural processes and human events.

Statistics is the science of designing informative experiments, of displaying and analyzing data, and of drawing valid conclusions from data. There is great demand for those who understand and can apply statistics effectively. Knowledge of statistical methods is useful to scientists and engineers, and to others working in government, research, industry, and medicine. Statistics can also be studied as a subject in its own right.

Mathematics and Statistics at Queen's is a multifaceted discipline, boasting many areas of study and taught by a faculty that includes leading researchers and many winners of national and university teaching awards.

PHYSICS AND ASTRONOMY

Physics deals with matter and energy and how they are related, starting with such everyday aspects of our world as force, heat, and electricity and progressing to ever-more abstract concepts like relativity, quantum mechanics, and beyond. We are one of Canada's leading departments for teaching and research in physics, engineering physics, and astronomy, as celebrated in our many recent awards such as the Nobel Prize in Physics, won by Dr. Arthur McDonald. We boast state-of-the-art laboratories, and a faculty that includes high-profile, world-class physicists doing cutting-edge work in theoretical, computational, applied, and experimental physics. Our students undertake interdisciplinary research with other departments at Queen's, as well as collaborating on international projects. Study Physics with us at Queen's, and you will be trained in observation and experimentation, in mathematics and model building. You will develop the confidence to tackle new and intellectually demanding problems, placing you at the leading edge of research and development in science and technology.

The Department of Physics, Engineering Physics and Astronomy also offers a Specialization in Astrophysics.

PSYCHOLOGY

Psychology is the study of mental processes and behaviour. Psychologists study relationships between brain function, behaviour, and the environment. As a discipline, psychology explores a wide range of topics including cognition, neuroscience, social influence, mental health, development, relationships, sensation, and perception. Psychology also explores the influence of factors such as gender and culture across these topics.

Our department is home to 31 labs, and we are growing. Our faculty members, globally recognized experts in their fields, conduct research in Brain, Behaviour and Cognitive Science, Developmental Psychology, Social Psychology, and Clinical Psychology.

Our department embraces active learning. From year one, students have hands-on learning opportunities built into their curriculum. Many of our students also choose to volunteer, and later conduct their own research, in our research labs.

Queen's University Accelerated Route to Medical School (QuARMS)

Queen's University Accelerated Route to Medical School (QuARMS) is a unique opportunity to apply to medical school after only two years of undergraduate study. This can reduce the time for receiving an MD from one of Canada's premier medical schools. QuARMS is the only admissions track of its kind in Canada.

To learn more about QuARMS and the requirements, please visit:
meds.queensu.ca/academics/quarms

Social Sciences

Head to the **University of Havana** to learn from professors, Cuban musicians, and filmmakers

26 labs to choose from in the Psychology department

Face-to-face interactions with professors and the opportunity to work with peers to tackle a **new way of learning**

ECONOMICS

What determines the prices of goods and services? How do individuals decide how much to spend and save? How can government policy help reduce environmental pollution?

These are questions we all face every day. Economics is our attempt to analyze and understand them. Often seen as being all about money, at its more basic level, Economics is concerned with the material well-being of human societies.

The Department of Economics has a long, celebrated history of academic excellence and is one of Canada's leading departments for undergraduate and graduate education. By systematically addressing these economics questions and many others, we can help you make better decisions in your personal life, in your business life and as a global citizen. Economics is essential to understanding the world in which you live and work.

ENVIRONMENTAL STUDIES

We are all aware of the grave environmental problems the world faces today, from climate change to habitat loss to environmental degradation. At the same time, we know that the solutions to these problems are not simple. No environmental issue can be treated in isolation from the society in which it exists. In Environmental Studies we realize that to make a difference in this field, students need knowledge of the cause and magnitude of environmental problems, as well as the tools to find solutions for them within the complex web of social, economic, and cultural factors we all live in. To give our students these, Environmental Studies at Queen's takes an innovative approach to environmental education. We bring together faculty from a wide variety of disciplines – biology, chemistry, geography, geological sciences, economics, history, and policy studies, to name but a few – which lets us offer our students a truly multidisciplinary perspective on the challenging environmental problems facing humanity today.

INTERESTED IN ENHANCING YOUR DEGREE?

Check out pages 58-61 for Certificates in Business, Media Studies, International Studies, Employment Relations and more!

GENDER STUDIES

This innovative, interdisciplinary program combines the arts, humanities, and social sciences, offering students a unique opportunity to design a degree suited to their interests and career goals. With 55 course offerings from 24 departments, above and beyond the unit's strong and popular core classes, Gender Studies enables students to develop targeted programs attentive to gender, race, class, difference, ethnicity, sexuality, ability, globalization, and politics. The department administers a study program leading to a Certificate in Sexual and Gender Diversity, an invaluable tool on the job market. This option is available to all students regardless of their degree concentrations, allowing them to add a critical sexualities and gender diversity component to their degree. Interested students have the opportunity to spend an exchange term in Norway at the prestigious University of Oslo. The department offers a practicum at the fourth-year level for students invested in community engagement and social justice.

GEOGRAPHY AND PLANNING

Human geography is a diverse and vibrant subject that aims to understand how humans interact on the earth's surface: the places they create, the boundaries they construct, the connections they make, and the environments they alter. Human geography has a rich intellectual tradition at Queen's which is broad and plural so a wide range of research is undertaken. On the humanities side, human geographers draw on ideas of agency, power and meaning to analyze written texts, such as novels, travel writing, and visual images. On the social science side, geographers engage with diverse research methods to study how people seek their various needs and wants and how resources and services are uneven across the globe. Human geographers also engage in field research and practical assignments to bridge gaps between theory and practice.

In addition to a concentration in human geography, the department offers students the option of earning a certificate in Geographic Information Science and/or Urban Planning Studies. Undergraduates can also pursue a fast-track professional master's degree in Urban and Regional Planning.

GLOBAL DEVELOPMENT STUDIES

Global Development Studies seeks to better understand the complex and unequal history of our shared world. Being interdisciplinary in nature, the program works closely with Geography, Economics, Environmental Studies, History, Languages Literatures and Cultures, Political Studies, Sociology, and Gender Studies as well as the Aboriginal Council of Queen's University to understand the nature of the interactions between and within the countries of the Global North and the South. Global Development Studies looks at poverty, cultural imperialism, human rights, physical environments, social policy, and trade relations. It also examines the varying notions of freedom, democracy, and progress that inform different visions of development. Our students are committed to making our world a better place and do so with first-hand experience in development through work-study placements and study abroad opportunities, including a course that is partially taught at the University of Havana.

HEALTH STUDIES

Health Studies strives to understand the complex factors that influence physical, mental, and social health, and overall well-being. Drawing largely from social science disciplines, our courses explore the social determinants of health, approaches to health promotion, health policy, health behaviour change, epidemiology, and program planning and evaluation. You will be expected to challenge yourself and to think critically about health in relation to social justice, politics, and culture. And you will gain the skills you need to do that. The Health Studies program also offers students the opportunity to participate in community-based and research-based practicums in upper years, as well as a 'mini-stream' practicum in Movement and Health and a certificate in Disability and Physical Activity in our specialized exercise facility for people living with mobility impairment and/or intellectual disability.

POLITICS, PHILOSOPHY, AND ECONOMICS

Study social issues and how our society responds to these issues, while asking questions drawn from economic, political and philosophical perspectives. Society faces challenges that are complex and multi-dimensional, and our efforts to tackle these challenges require us to bring complementary intellectual skills together using multidisciplinary analytical and critical approaches. This program combines Economics, Philosophy, and Politics in ways designed to prepare students to enter graduate studies in their area of specialization; law, public service, international development, policy design and analysis, or any other career that calls for strong analytical and communication skills.

POLITICAL STUDIES

Politics is about power – who has it and how it is exercised by nation-states, individuals, groups, classes, or political parties, and how different interests are reconciled in and between communities. Political Studies is also concerned with institutions created to govern communities, as well as practices such as voting habits or protests, and how rules, behaviour and culture are created in societies. And since power in society is often dependent upon material resources, political scientists study the distribution of wealth, both within and between nations. Students sharpen their debating skills at the Queen's Model Parliament, they discuss international issues at Queen's Model UN or with the Queen's International Affairs Association. Learning in Kingston, a city with a significant number of public sector institutions and well-recognized politicians as part of the faculty, politics at Queen's extends beyond the classroom.

PSYCHOLOGY

Psychology is the study of mental processes and behaviour. It covers a wide range of topics including cognitive and behavioural neuroscience, social influence, health, development, and abnormal behavior. Studying Psychology helps you answer questions like how our early experiences affect us, what we can do to better manage stress, and how our brains process information about the world.

In the social science stream of Psychology, you will focus on child development, personality differences, how people act in groups or organizations, sexuality, and health-related behaviours. You will study these in the context of both normal and abnormal behaviour. Home to 26 labs, psychology students have the opportunity to work alongside faculty researchers and graduate students to gain valuable research training.

SOCIOLOGY

Sociology investigates how societies work, and studies social life at every level, from personal relationships to how institutions and nations function, right up to global interconnections.

Queen's Department of Sociology is widely known for its strengths in Criminology and the Law, Media (Informational and Surveillance), and Social Justice. Studying Sociology at Queen's will help you understand the structures and dynamics of societies and the complex effects these have on human behaviour, public issues, everyday life, politics, culture, and individual life choices. Through courses focusing on topics as diverse as surveillance, the sociology of crime and delinquency, and consumer culture, you will start to understand how differing social forces produce order and influence what we do and how we think as a result.

Bader International Study Centre

Queen's University is the only university in Canada where students can complete their first year of studies overseas – in a **historic 15th century castle** in East Sussex, UK. The formal name is the Bader International Study Centre, but we call it the BISC or The Castle

Herstmonceux Castle is situated in **East Sussex**, on the south coast of England, about an hour and twenty minutes away from London thanks to local railway connections

Living and learning on the Castle estate in the countryside, gives context to your academics. You will be immersed in history, surrounded by beauty, and be part of a vibrant local community

queensu.ca/admission/programs/castle

The Castle is

Immersive

- Live and learn alongside your professors, in a close-knit campus with a class of approximately 135 first-year students. You will know the names of all your classmates, and your professors will know yours.
- Small classes allow for lots of dialogue and debate, helping you develop your skills in critical thinking and analysis.
- The immersive atmosphere continues in your academic experience, where you will learn by doing – giving you the confidence to learn to engage with your professors and classmates.

International

- Living and learning in a different country for an entire year will give you an exceptional life experience that will set you apart from your peers.
- Skills developed in class will be strengthened by the opportunity to travel during Mid-Term Trips and on Experiential Learning Opportunities.
- Your global education will help you develop intercultural competencies that are increasingly important for students and employers.

Interactive

- Your tuition fees cover exciting opportunities to go on both one-day and multi-day trips, designed to enhance your learning experience. Experiential Learning Opportunities (ELOs) and Mid-Term Trips will help you develop the skills for success through active participation and personal contact with primary sources outside the classroom.
- Two mid-term trips give you the opportunity to explore important historical, cultural and scientific landmarks in cities like Edinburgh, Liverpool, and Paris.

The Castle

First-Year Program

The first-year program at the Castle differs from the Kingston campus in that classes are small, and experiential learning opportunities offsite abound. Students completing their first year at the Castle will declare their major at the same time and in the same way that those studying in Kingston do and will have a large range of program paths open to them.

Signature first-year courses at the BISC include BISC100/101: Thinking Locally/Acting Globally. These courses draw together several disciplines: History, Film, Drama, Languages, Literatures and Cultures, Sociology, Geography, and Health Studies.

FIRST-YEAR ARTS

Bachelor of Arts, Honours (BAH)
OUAC Code: QIA

From courses in Global Development Studies to Philosophy, Politics and Economics, to Film, and French, the classroom experience will be rich with debate, discussion and immersive experiences only available when studying in such a historical place.

FIRST-YEAR SCIENCE

Bachelor of Science, Honours (BSCH)
OUAC Code: QIS

The core courses of Biology, Chemistry, Physics, Psychology, Geology, Math, and Astronomy are offered at the Castle – opening up many Science majors including Biochemistry, Biotechnology, Environmental Science, and Life Sciences. The small-class setting not only provides a prestigious opportunity for the resume, but a learning environment designed for excellence. All labs take place in our new state-of-the-art science and innovation labs onsite, steps from your Residence opening in September 2019.

FIRST-YEAR CONCURRENT EDUCATION / ARTS OR SCIENCE

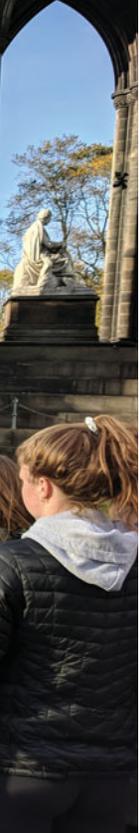

Concurrent Education / Bachelor of Arts, Honours (BAH/B.Ed.)
OUAC Code: QIB

Concurrent Education / Bachelor of Science, Honours (BSCH/B.Ed.)
OUAC CODE: QIF

With observations at local schools, the international experience you gain will set you apart from your peers. Our dedicated Careers Evening will allow you to network with Canadian teachers now working in the UK and give you a competitive edge by encouraging you to think about your future career opportunities.

CAREER-READY SKILLS AT THE CASTLE

Whether you choose Arts, Science, or Concurrent Education, you will have the chance to participate in sessions, both at the castle and offsite, to develop the skills you will need for successful interviews and workplace success. We bring in experts to work with you to develop your employment aptitude and confidence.

Living and Learning at the Castle

The Castle is a truly unique place to live and learn. Students who choose the BISC learn to be independent, resilient, and resourceful people. The close-knit sense of community encourages you to be a team player and helps you break down the barriers of trying something new.

THE CAMPUS

Herstmonceux Castle is hundreds of years old, but the amenities on the 600-acre estate have been renovated to offer the modern facilities you would expect, such as fully-equipped classrooms, a gym and work-out facilities, music practice rooms, and automated self-issue library and reading rooms.

RESIDENCE

Residence is guaranteed for all students at the Castle. Students live in the modern Bader Hall residence, just a short walk away from the Castle. The BISC seamlessly integrates strong academic programming with a coordinated and supportive approach to all aspects of residence life on campus.

HEALTH AND WELLNESS

You will have access to full Health and Wellness support on and off campus, while our team of Student Life Coordinators live in residence to lead community events and are available to assist whenever required.

YOUR FEE INCLUDES:

- Tuition
- Program fee
- Residence and meal plan (includes 3 meals per day)
- Two Mid-Term Trips per year to Liverpool, Edinburgh, and Paris*
- Travel and accommodation for Experiential Learning Opportunities
- Access to a free minibus service to help you get off campus and explore the local area

* Examples of past mid-term trips

Concurrent Education

Designed to give our students the opportunity to **get out into the job market earlier** – within 5 years + 1 summer

Over **80% of graduates are employed** as teachers within one year of graduating

The Queen's education degree is **widely accepted across Canada, and around the world**, for teacher certification

Popularly known as Con-Ed, Concurrent Education is a program for high school graduates with a passion for teaching and learning. From your very first day at Queen's, you will work on two degrees: one in Arts, Science, Music or Fine Art (Visual Art), the other a Queen's Bachelor of Education. You may even decide to do your first-year at the Bader International Study Centre in East-Sussex, England

educ.queensu.ca/teacher-education

Degree:

Bachelor of Arts, Honours (BAH/B.Ed.)

OUAC Code: QB (Kingston campus) or QIB (BISC campus)

Bachelor of Science, Honours (BSCH/BEd)

Learn by Doing

You will complete in-school placements, gaining work experience in classrooms alongside other education professionals. The Con-Ed program also includes a three-week alternative practicum that is completed outside a regular classroom setting and can be anywhere in the world as long as it is related to the program. Queen's offers travel fellowships to support alternative practicum placements abroad. There are also opportunities for professional development through workshops and the Queen's Conference on Education.

Engineering

Your curiosity and creativity will come to life.

Learn to work together in effective groups... and to tell the world about what you have done. It's what engineers do in the real world. It's what you will do in Queen's engineering, starting from day one.

Your curiosity will create solutions for a better world in your program of choice.

In your first year you will explore all streams of engineering, with a FREE choice of your area of specialty going into second year provided you pass all your first-year courses. You can choose Electrical and Computer Engineering through the common first year, or you can apply directly to that program and specialize from first year.

**CURIOSITY
CREATES**

**SOLUTIONS
FOR A
BETTER WORLD**

- If you want to push the boundaries of what is possible by exploring the world's problems with **relentless curiosity and creativity**
- If your adrenaline is pumping to **explore, decode, and reframe** problems and opportunities
- If you seek to not only build and construct better structures, but to **speed the flow of information...to protect the environment...to propel medical progress**

If you want to **eliminate the gap between what is and what can be...**

You are a Queen's Engineer

Bachelor of Applied Science (BASc)

Bachelor of Applied Science with Professional Internship (BASc)

OUAC Code: QE

CHEMICAL ENGINEERING

Society relies daily on products such as fuel, pharmaceuticals, advanced composites, semiconductors, magnetic and optical storage devices, agricultural products, light-weight materials, coatings, synthetic fibers, and personal care products. Chemical Engineers develop new advanced materials and design the processes that convert raw materials into value-added products. Chemical Engineering is a broadly-based engineering discipline, which combines the study of mathematics, chemistry, physics, and biology with engineering science, design, and economics. Students learn how to design safe, efficient, environmentally-friendly, sustainable, and economical processes and products. They also acquire direct experience with pilot-scale chemical process equipment and simulators. Queen's Chemical Engineering offers options in Chemical Process Engineering and in Bioengineering. **Areas of specialization** include biochemical, biomedical, bioenvironmental, and chemical process engineering options.

CIVIL ENGINEERING

We go about our lives within a physical environment created by civil engineers: houses, schools, office buildings, highways, and bridges, even river and coastal systems and green landfills. As a civil engineering student, you will study how to plan, design, and build these structures and systems – with an approach that respects the environment. To prepare you for working in the real world, this innovative program emphasizes individual learning, teamwork, communication, leadership, and problem solving. **Areas of specialization** include environmental, structural, geotechnical, and hydrotechnical.

COMPUTER ENGINEERING

Computer Engineering, together with Electrical Engineering, has been the prime economic driver in the 20th century, and permeates every facet of human activities. It provides the software and hardware that govern how we produce, consume, learn, shop, bank, entertain, travel, and connect with each other. The discipline combines software engineering and computer hardware and architecture. The discipline is at the intersection of engineering, computer science, and mathematics. It enables applications in mobile computing,

Internet of Things, wearables, cyber security, smart homes, and data analytics. It is the perfect discipline for people who want to use computers to make our world a better, safer, more exciting place to live. **Areas of specialization** include software engineering, hardware, mechatronics, artificial intelligence, and machine learning.

ELECTRICAL ENGINEERING

Electrical Engineering, together with Computer Engineering, has been the prime economic driver in the 20th century, and permeates every facet of human activities. It provides intelligence and control of the social fabric and hardware infrastructure, and changes the way we produce, consume, learn, shop, bank, entertain, travel, and connect with each other. The discipline is at the intersection of applied mathematics, physics, and chemistry and integrates a range of complex technology platforms including opto-electronics, microwave technology, communications, energy and power systems, control systems, computing, and software. It enables applications in automation, augmented and virtual reality, security, autonomous vehicles, lab-on-a-chip, smart grids, and renewable energies. It is the perfect discipline for the dreamers, doers, and entrepreneurs who want to influence the 21st century and beyond. **Areas of specialization** include biomedical engineering, communications and signal processing, microelectronics and photonics, mechatronics, energy and power electronics, robotics, and control.

ENGINEERING CHEMISTRY

As the only program of its kind in North America, Engineering Chemistry provides in-depth knowledge of chemistry in addition to engineering core knowledge. Engineering Chemistry graduates are experts in the chemistry behind industrial processes and combine a strong background in both chemistry and chemical engineering to treat problems of industrial interest. In this program, you will study applied organic chemistry, inorganic chemistry, reactivity principles, methods of determining structure, and you will acquire knowledge of materials at a molecular level. You will be able to apply this core chemical knowledge to design and improve processes and materials, ranging from fuel cells to pharmaceuticals. **Areas of specialization** include chemical diagnostics, alternative energy, and process synthesis.

ENGINEERING PHYSICS

Students will learn how to apply the knowledge of the fundamental physical principles underlying modern technology and processes. You will study a strategic combination of math, physics, and engineering courses from a chosen specialty area. Courses in quantum mechanics, laser optics, and nanotechnology will help

prepare you for an engineering career at the leading edge of technology. You will acquire advanced problem-solving and instrumentation skills, and will be able to apply your superior mathematical, analytical, and abstract-thinking abilities to modern engineering challenges. **Areas of specialization** include mechanical, computing, electrical, and materials.

GEOLOGICAL ENGINEERING

In this program you will apply mathematics, physics and chemistry as well as the principles and techniques of the earth sciences to such tasks as geohazard and georisk management, design and construction of infrastructure on, through or with earth materials, preventing soil and water contamination, managing groundwater resources, extracting mineral and energy resources, and non-destructive investigation of the Earth's subsurface. You will combine advanced engineering skills with a unique knowledge and understanding of earth materials, volcanism and crustal development, tectonic history, surface processes and deep time to design sustainable solutions to critical human needs. You will also acquire field, laboratory and analytical skills and training in state-of-the-art tools. **Areas of specialization** include geo-environmental engineering, engineering geophysics, geotechnical engineering, rock engineering and mineral/energy exploration.

MATHEMATICS AND ENGINEERING

This program is unique in Canada. Course content includes highly sophisticated mathematical approaches to engineering issues. As a Mathematics and Engineering student, you will take pure and applied math along with engineering courses in your chosen area of specialization. You will learn to analyze and solve engineering problems requiring superior math skills,

such as those involving modern communications, control and mechatronic systems. **Areas of specialization** include applied mechanics, computing and communication, systems and robotics.

MECHANICAL AND MATERIALS ENGINEERING

Mechanical engineers are needed wherever there is machinery. They drive every stage of design, manufacturing, construction and research. In this program you will combine the study of basic engineering with practical courses in machine design, robotics and manufacturing methods. Hands-on design is integral to this program, so you may find yourself involved in designing artificial joints, or even a spacecraft, depending on your specialization. If you choose the Materials option, you'll study the exciting developments in materials and nanotechnology. **Areas of specialization** include aerospace, mechatronics, biomechanical, manufacturing, materials, and thermofluids.

MINING ENGINEERING

Aside from plants, all of the raw materials used by human society come from minerals extracted from the earth. This program prepares you for careers in the minerals industry and related environmental and technological fields. As a Mining Engineering student, you will study a broad range of disciplines focused on locating, extracting, producing, refining, utilizing, reusing, recycling, and disposing of mineral and metal products and byproducts. The program teaches students how these processes can be carried out efficiently and competitively, with a focus on sustainability and the environment. **Areas of specialization** include mine-mechanical, mineral processing and environmental, and mining.

Electrical and Computer Engineering Innovation Stream

OUAC Code: QEC

You know that Electrical and Computer Engineering is your passion. You are innovative and your sights are set on a career or future study. You have a clear vision of where you want your education to lead you.

Consider Queen's Electrical and Computer Innovation Stream. You will develop entrepreneurial skills and world-class technical expertise that are the hallmark of Queen's Engineering. Admission is limited to 50 students.

HIGHLIGHTS

- Beginning in first year, you will receive an enriched Electrical and Computer curriculum that builds on Queen's Engineering's common first year
- Participate in team-based learning that focuses on product development and prototype demonstration
- Network with like-minded students and promote your ideas
- Receive guidance and support on technical aspects, business models, as well as execution of your innovative ideas
- Tailor your education to match your interests and ambitions by selecting from a large variety of courses
- Acquire skills that can be applied to almost any technical field – industrial or academic

Degree: Bachelor of Commerce (BCom, Honours)

What's your Passion?

- Entrepreneurship
- Social Impact
- Human Resources
- Accounting
- Marketing
- Consulting
- Finance
- International Business

Learn by Doing

- Dynamic and interactive classes, team challenges, living business cases, simulations, projects, and experiential trips
- Lead conferences, case competitions, and entrepreneurial opportunities
- Study abroad at an international exchange partner school or the Bader International Study Centre

Commerce

Bachelor of Commerce (BCom, Honours)
OUAC Code: QC

COMMERCE

For a career in business, you want the best start possible. The Commerce program at Queen's Smith School of Business will provide you with a deep understanding of business strategies and concepts, and foster your unique capacity for leadership, collaboration and communication.

You will be part of a strong community at Smith, with interactive classes, team projects, challenges, competitions, events, and clubs.

COMMERCE SOCIETY

All BCom students are part of the Commerce Society (ComSoc), the largest undergraduate business society in Canada, with close to 1,000 student-held positions. ComSoc organizes social and networking events, conferences, and

competitions, including Canada's largest and longest running business case competition.

INTERNATIONAL EXCHANGE

You can take an extraordinary study-abroad semester in third year and attend one of more than 100 business schools around the world.

THE CAREER ADVANCEMENT CENTRE

The business school has its own Career Advancement Centre dedicated to working with our students to help define paths and find rewarding jobs. Top companies come to Smith to recruit because of the high quality of our graduates.

OPTIONAL PROGRAMS

- Certificate in Social Impact from Smith's Centre for Social Impact
- Dual degree in the Faculty of Arts and Science
- BCom / Juris Doctor (JD) combined degree with the Faculty of Law
- Smith BCom / Peking BA (Management) Double Degree

Health Sciences

Take specific health sciences courses right out of high school, where you'll experience **hands-on learning** in facilities like our state-of-the-art anatomy lab

You can select optional courses from one or more of our **six learning tracks** to allow you to focus on the topics that interest you the most

Combine innovative in-class and online studies for a **truly unique educational experience** that gives context to course material with real-world learning

Available both on-campus and online, this program is for students who are interested in a health-related career or are hoping to pursue future studies in the health professions – medicine, rehabilitation therapy, or other related graduate programs

bhsc.queensu.ca

Degree: Bachelor of Health Sciences (BHSch Honours)

What's your Passion?

- Global and Population Health
- Infection, Immunity, and Inflammation
- Anatomical and Physiological Basis of Health and Disease
- Pharmacology, Toxicology, and Therapeutics
- Molecular Basis of Biology
- Applied Research Methods in Health Sciences

Learn by Doing

Our program is distinctive in that it is designed to align closely with the competency framework used by medical schools and other health professional programs. By doing so, students in the program will not only learn the course content, but will learn how to apply and extend their knowledge by becoming effective advocates, collaborators, communicators, leaders, scholars, professionals, and content experts.

What is a FLIPPED CLASSROOM?

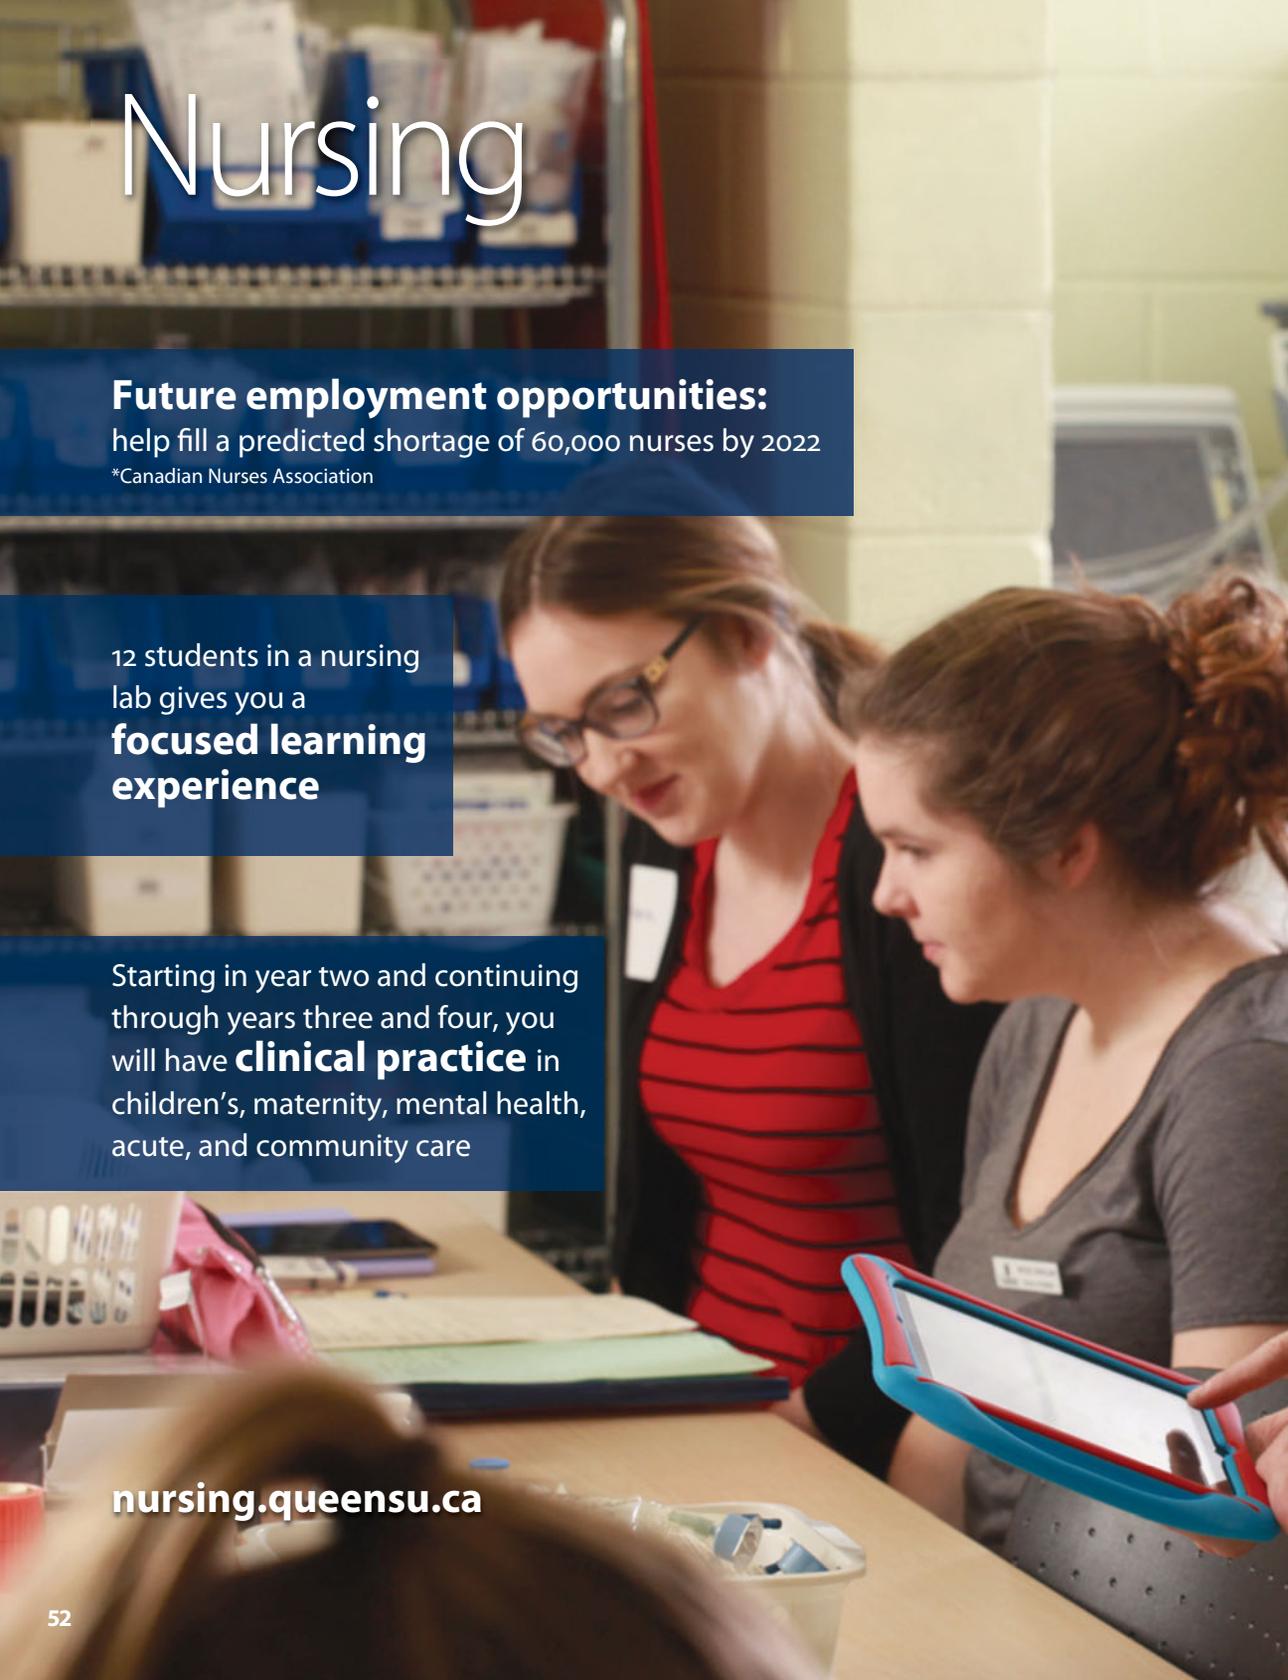

The flipped classroom model of education, offered by the Queen's BHSch program, uses teaching facilities specifically designed to enhance face-to-face interactions, enabling students to learn from each other and from course faculty in an effective manner. Using this approach, students are not restricted by the traditional delivery method, with the predefined hours of lecture-based learning. Instead, students are provided access to online modules to learn at their own pace prior to attending engaging, active learning classroom sessions where they will be expected to apply and integrate course material in a real-world context.

QBridge

School of English
English Language Bridging Pathway

QBridge is an English language pathway to Queen's University for students who are academically competitive for admission to a Queen's undergraduate degree program, but who do not meet the required admission standard for English language proficiency.

The pathway ensures that students are linguistically, academically, and culturally prepared to complete their Queen's undergraduate degree studies.

qsoe.educ.queensu.ca/programs/qbridge

BY THE **numbers**

75+ years of English language programs at Queen's School of English

200+ QBridge students enrolled each year

10+ countries represented in student population

12-19 students per class

Eligible Degree Programs

QBridge Accelerated and QBridge EAP are available as pathways to undergraduate degree programs in Arts, Science, Computing, and Engineering.

QBridge: ACCELERATED

July-August

An intensive eight-week summer course, QBridge Accelerated is for students with the following minimum standardized English language test scores:

TOEFL iBT	80
IELTS	6.0, with no band below 5.5
MELAB	78
PTE	55
CAEL	60

Students must achieve a minimum grade of B in QBridge Accelerated to progress to their academic degree program beginning in September.

QBridge: ENGLISH FOR ACADEMIC PURPOSES (EAP)

Starts in September for Two Terms

Students who do not meet the requirements for QBridge Accelerated, but are academically competitive for admission will be considered for QBridge EAP if they present the following minimum standardized language test scores:

TOEFL iBT	58
IELTS	5.5, with no band below 5.0
MELAB	58
PTE	40
CAEL	50

Students must achieve a minimum grade of A- in EAP 140, or B in EAP 150 to fully progress to their academic degree program. Students in the upper levels may choose to enrol in one for credit course (see queensu.ca/qsoe/qbridge for details). If a student has not reached the required standard, then further EAP courses will be required.

Applying for Admission

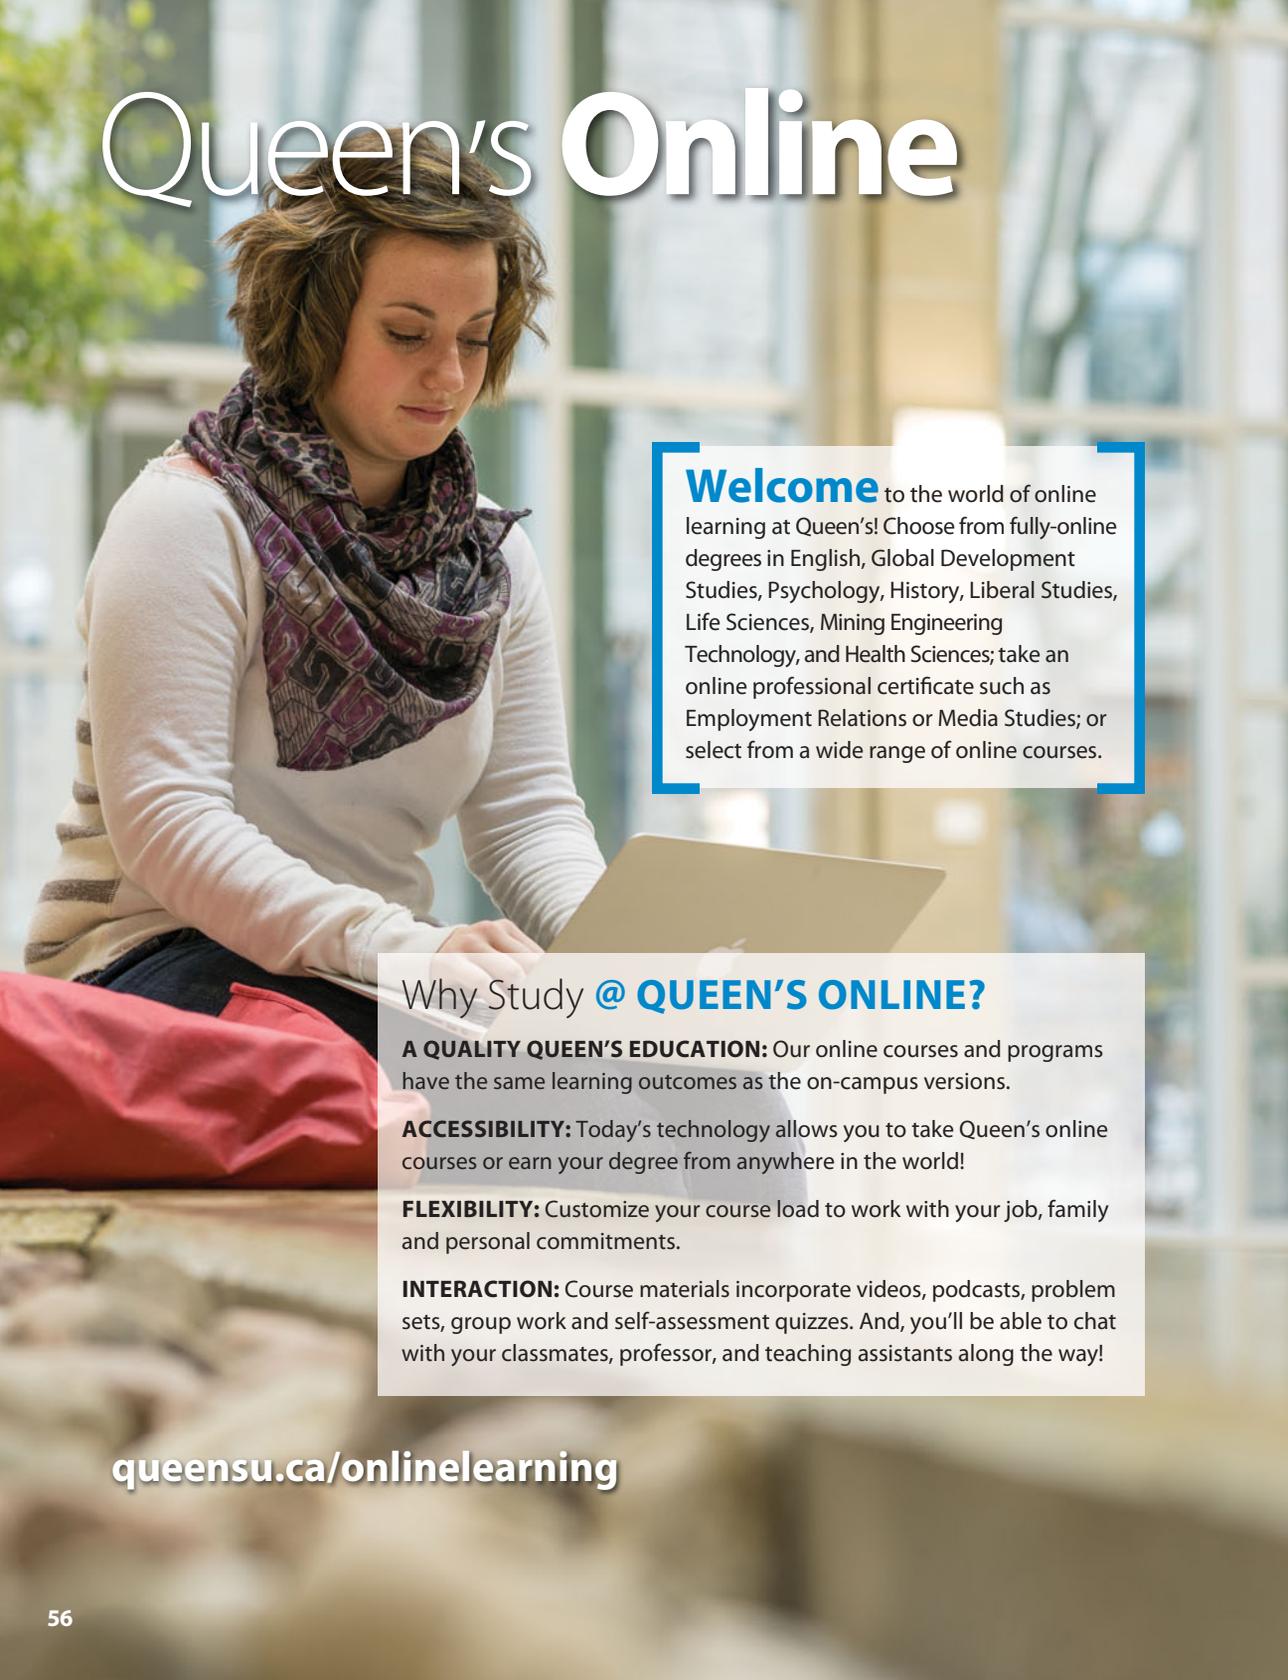

Students are required to apply* for QBridge Accelerated and QBridge EAP through the Ontario Universities Application Centre (OUAC) using the following OUAC codes:

- Bachelor of Arts (Honours): QXA
- Bachelor of Science (Honours): QXS
- Bachelor of Engineering: QXE
- Bachelor of Computing (Honours): QXD

English language scores received by the documentation deadline will determine eligibility to QBridge Accelerated or EAP.

* How to apply can be found on page 101, Competitive Averages for Admission Consideration can be found on page 103, and Admission requirements can be found on pages 104-111.

Queen's Online

Welcome to the world of online learning at Queen's! Choose from fully-online degrees in English, Global Development Studies, Psychology, History, Liberal Studies, Life Sciences, Mining Engineering Technology, and Health Sciences; take an online professional certificate such as Employment Relations or Media Studies; or select from a wide range of online courses.

Why Study @ **QUEEN'S ONLINE?**

A QUALITY QUEEN'S EDUCATION: Our online courses and programs have the same learning outcomes as the on-campus versions.

ACCESSIBILITY: Today's technology allows you to take Queen's online courses or earn your degree from anywhere in the world!

FLEXIBILITY: Customize your course load to work with your job, family and personal commitments.

INTERACTION: Course materials incorporate videos, podcasts, problem sets, group work and self-assessment quizzes. And, you'll be able to chat with your classmates, professor, and teaching assistants along the way!

queensu.ca/onlinelearning

Fully-Online Programs

Arts Degrees

Bachelor of Arts, General (BA)

ENGLISH

OUAC Code: QOE

When you study English Literature at Queen's, you will learn to read perceptively, analyze clearly, and above all communicate effectively. Students explore the literary canon, including writers such as Shakespeare, Austen, and Brontë, but also engage with current forms such as graphic novels and works of contemporary writers.

GLOBAL DEVELOPMENT STUDIES

OUAC Code: QOG

Learn strategies to craft positive social change through online courses that examine the multiple notions of freedom, democracy and progress that inform different visions of development. Students will gain effective communication skills and learn to critically appraise diverse arguments and interpretations including Aboriginal and Indigenous perspectives on settler colonialism.

HISTORY

OUAC Code: QOH

Today's employment marketplace seeks individuals who are critically informed, culturally literate, capable of synthesizing information and adept at creating and managing knowledge. Study History online at Queen's and you will acquire such skills while examining the roots of contemporary societies throughout the world.

LIBERAL STUDIES

OUAC Code: QOL

Explore how the humanities, social sciences and natural sciences have shaped much of our daily lives through courses in four modes of critical thought: scientific inquiry and reasoning, insights into contemporary

society and culture, critical perspectives on history, and writing. This online program will help you develop adaptable skills for any career path or life activity.

PSYCHOLOGY

OUAC Code: QOP

What animal is the smartest? What persuasion techniques work best? How is our gender identity formed? Explore these questions and more through the online study of development, cognition, motivation and social behaviour. Students will test theories, evaluate scientific evidence and apply this knowledge to everyday life while developing effective communication, collaborative, and technical skills.

Science Degrees

HEALTH SCIENCES

OUAC Code: QHO

Bachelor of Health Science, Honours (BHScH)

The Bachelor of Health Sciences (BHScH) program is an online degree, purpose-built to provide graduates with a pathway to future studies in the health professions. It's an ideal degree for students ultimately interested in gaining admission to medicine, rehabilitation therapy, biomedical research, and a wide variety of other health professional and graduate degree programs.

LIFE SCIENCES

OUAC Code: QLO

Bachelor of Science, General (BSc)

Develop a strong grounding in basic sciences, and then focus on the biomedical sciences such as human anatomy, physiology, microbiology and pharmacology. This online program will foster an interdisciplinary perspective to your understanding of today's diseases and disorders.

MINING ENGINEERING TECHNOLOGY

Bachelor of Mining Engineering Technology (BTech)

BTech is a degree program designed to meet the needs of the modern mining industry and of college-educated professionals looking to advance their career and education. Designed for engineering technologists and technicians or any student who has completed at least two years of university study in a relevant science field, the program features customized bridge courses and two years of online university study, including onsite field placements in Kingston and Haileybury, ON.

BY THE numbers

8 degree programs offered fully online

125+ courses offered online

6400+ on-campus students take at least one online course during the academic year

Enhance Your Education

As part of your Queen's experience, you may choose to add depth and focus to your degree through one of our innovative programs in less time than it would take you to do them individually – giving you a competitive advantage in the job market or on graduate school applications!

queensu.ca/admission/programs/certificates

Dual Degrees at Queen's

Dual Degree programs allow Queen's Commerce, Engineering and Applied Science, and Nursing students to complete an Arts and Science General Degree concurrently as they are working towards the completion of their primary degree in their home Faculty/School.

Learn more about Dual Degrees at queensu.ca/artsci/dualdegrees

Certificate Programs

Certificates are a new way to stand out when you graduate. These mini-credentials can make you more competitive in the job market. You can choose a certificate close to your main field of study or something completely different. Some courses will count towards your electives, the additional courses can be taken in the summer or as an extra credit during your usual semester.

online courses

on-campus courses

Offered by the Faculty of Arts and Science

Academic Writing

Good writing skills can enhance your learning, enable you to communicate more effectively and prepare you for future academic or workplace writing tasks. This 12-unit online certificate gives you the opportunity for these skills to be certified and recognized by potential employers. You will learn to plan, outline, write, and revise documents such as essays, lab reports, and annotated bibliographies.

Data Analytics

The certificate in Data Analytics, offered by the School of Computing, will give students solid grounding in inductive modelling and natural experiments, as these become a new method for understanding complex systems that are not accessible to controlled experiments. Students will learn and be able to design inductive model building algorithms appropriate for systems of significant size, evaluate the performance and quality of the models built and justify and interpret the results of analytic processes.

Disability and Physical Activity

The Certificate in Disability and Physical Activity is offered by the School of Kinesiology and Health Studies in collaboration with Revved Up, an adapted exercise program. This certificate offers students on campus the unique opportunity to develop (1) a deeper understanding of what it means for people to live with a disability/chronic disease, (2) exercise prescription skills for persons with a disability/chronic disease, and (3) strong communication and leadership skills. Students in this Certificate will apply theoretical content in a practical manner when working one-on-one with individuals with mobility impairments, intellectual disabilities and/or cancer in the Revved Up gym. This Certificate is recognized on students' final transcripts, which will help students stand out when applying to professional programs in health care or working with persons with a disability/chronic disease.

Employment Relations

Designed to provide students with an additional credential that will support them in seeking entry-level jobs in labour relations and human resources management, the Certificate in Employment Relations will appeal to students who are interested in the theory, policy, and legal frameworks behind the employment relationship, and how these can be applied should they choose to work in the employment relations field.

Entrepreneurship, Innovation, and Creativity

The Entrepreneurship and Innovation Certificate is the first of its kind, bringing together nine different Faculties, Schools, Departments and service units. Housed within the Faculty of Arts and Science and the Dan School of Drama and Music, this certificate was designed to allow students to develop an entrepreneurial mindset and to execute entrepreneurial innovation. Students will have the opportunity to study and practice skills in marketing and promotion as well as finance and business planning. Through a variety of interdisciplinary courses, students will be challenged to develop an entrepreneurial mindset while brainstorming, researching, designing and communicating ideas for innovation together with peers, end users, leadership teams, potential investors and various other key stakeholders.

French for Professionals

Designed to provide students with the necessary language skills to effectively work in a bilingual professional environment, the Certificate in French for Professionals will help both new learners and current professionals establish the written and oral communication skills required to meet the specific needs of their workplace. Students will enhance their effective communication skills by applying new vocabulary and expressions in daily interactions, learning how to tailor language for specific business contexts, and constructing documentation necessary for workplace success. Through core courses, students will analyze case studies, participate in role-play activities, and create collaborative projects that simulate real work situations related to their professional area of interest.

Geographic Information Science (GIS)

GIS is a program through the Department of Geography and Planning that is open to all undergraduate students at Queen's University. This certificate program offers courses on theory and practical aspects of collecting, managing, visualizing and analyzing spatial data through

global positioning systems, geographic information systems, remote sensing, image processing and spatial modelling technologies. These multi-disciplinary courses provide students both theory knowledge and hands-on, practical experience and at the same time develop key professional transferrable skills demanded by the competitive job market.

Global Action and Engagement

This fully online certificate is for students seeking preparation for overseas work or volunteer and community engagement opportunities and who are looking to better understand global development issues and contexts. Through a variety of online courses, students will work collaboratively to investigate development changes, critically reflect on the relationship between development theory and practice, and propose and evaluate action-oriented solutions. Through the certificate's core courses, students will take an interdisciplinary approach to the exploration of concepts related to the political, economic, social and cultural forces that shape contemporary global interactions.

Indigenous Languages and Cultures

The Department of Languages, Literatures and Cultures in partnership with the Four Directions Indigenous Student Centre offers this certificate to students looking to gain a basic understanding of various Indigenous languages and cultures. Students will better understand these languages, through instruction embedded in culturally rich and authentic practice, and be introduced to the many traditions, philosophies, and histories of Indigenous peoples.

International Studies

The International Programs Office, in cooperation with the language departments, offers a study option. This option is available to all Queen's University undergraduate students regardless of their degree concentration. The International Studies Certificate combines language acquisition with cultural and interdisciplinary learning, and includes a study abroad experience.

Media Studies

Interested in media, marketing and digital culture? In our Certificate in Media Studies, you will learn how media has evolved over time and the impact of everyday media use on the formation of identities, perceptions and lifestyles. Explore a variety of popular media forms and genres while earning a specialized certificate that communicates to employers your practical skills in media studies and production.

Sexual and Gender Diversity

Gender Studies offers this certificate for students looking to add a critical sexualities and gender diversity component to any degree program. It allows you to think through and engage with sexual and gender diversity studies within your particular program – from nursing, education, or history, to law, sociology, or politics. At a time when LGBTQ+ issues are on the public agenda, the certificate can provide you with a credential to take with you into your future career.

Urban Planning Studies

The Department of Geography and Planning also offers a Certificate in Urban Planning Studies that is open to all undergraduate students at Queen's University. The certificate introduces students to urban planning-related issues grounded in an appreciation of city life and city structures, and prepares students for advanced studies and careers related to urban planning, such as community development, real estate, municipal governance, international development, or education. The Certificate in Urban Planning Studies provides a balanced, multi-disciplinary approach to the study of cities by incorporating the main disciplinary foundations of the study of urban planning. This certificate provides students with an opportunity for focused, advanced study of city planning and city development, combined with skills regarding the practice of urban planning that will support them should they decide to complete a professional degree in this field.

Learn more about these programs at queensu.ca/arts/certificates

Business

Offered by Smith School of Business

The Certificate in Business helps students gain a competitive advantage in the job market. Application to the Certificate in Business is open to Queen's students in Arts and Science, Engineering, and Nursing. Students will study business fundamentals, financial and management accounting, marketing, finance, and organizational behavior in addition to their undergraduate degree.

The certificate offers a series of six introductory-level Commerce courses. Students who successfully complete all of these courses will receive the Certificate in Business, which will be recognized on their final transcript.

Learn more about the program at smithqueens.com/cib

Law

Offered by Queen's Faculty of Law

The Queen's Certificate in Law is Canada's only undergraduate law program to be offered by a law faculty both online and in a blended format on campus. The Certificate in Law focuses on the major statutes, policies and cases for each area of law addressed by certificate courses. Students will learn the historical, social, and economic forces shaping the law; the basics of legal reasoning; how to develop, articulate and justify a position; and how recent domestic and international trends and agreements affect the law.

Learn more about the program at queensu.ca/lawcertificate

After You **GRADUATE** from University

FURTHER EDUCATION

School of Graduate Studies

queensu.ca/sgs

The School of Graduate Studies offers over 125 master and doctoral programs within 50+ departments and specialized centres of research. In addition to traditional research-based programs, we offer a number of diploma and/or professional master's programs. Many of our programs are collaborative and interdisciplinary; some are fully online and others are blended. We support all of our graduate students by providing award-winning resources and a professional development workshop series developed specifically for Queen's grad students, as well as a number of opportunities to showcase graduate student research, teaching and learning.

Consecutive Education

DEGREE OFFERED: **Bachelor of Education (B.Ed.)**
educ.queensu.ca

Queen's Consecutive Education prepares university graduates to qualify for Ontario College of Teachers certification. It is four successive terms, starting in May and ending in August the following year. Most other faculties of education offer their program over two years, with typical fall and winter semesters. An advantage for Queen's graduates is that they are out into the job market one year early.

All Queen's candidates choose either Primary-Junior (JK – Grade 6) or Intermediate-Senior (Grades 7-12). More importantly, they choose a concentration that allows them to specialize in one of many fields such as Aboriginal Education, Arts in Education, International Education, Outdoor and Experiential Education, At-Risk Children or Exceptional Learners. The program includes 21 weeks of practicum placements, including an alternative practicum that can be done outside of a school setting and anywhere in the world as long as it is related to the program. Queen's also offers travel fellowships to support alternative practicum placements abroad.

Faculty of Law

DEGREE OFFERED: **Juris Doctor (JD)**
law.queensu.ca

Queen's Faculty of Law offers an outstanding three year Juris Doctor (JD) professional degree in law, within a collegial, innovative culture for teaching and learning. The JD degree is undertaken following completion of an undergraduate or graduate degree in any discipline. Completion of the JD degree is an eligible basis for registration in the licensing process for any province of Canada, except for Quebec. Queen's partners with the University of Sherbrooke, to offer a one year civil law degree following completion of the common law JD. The Queen's JD is also an eligible basis to seek admission to the Bar of the States of New York and Massachusetts in the USA. Queen's also offers the following combined degree programs:

- BCom-JD for Queen's undergraduates; both degrees can be earned in six years, rather than seven.
- 3.5 year JD-Master of Business Administration
- 3 year Master of Arts (Economics)-JD
- 3.5 year Master of Public Relations-JD (3 year option available)
- 3.5 year Master of Industrial Relations-JD (3 year option available)

School of Medicine

DEGREE OFFERED: **Doctor of Medicine (MD)**
meds.queensu.ca

See more information about the Queen's Accelerated Route to Medical School program on page 31.

The School of Medicine offers a four-year program that prepares graduates for postgraduate training leading to licensure and certification. We're particularly proud of the school's opportunities for close, personal interactions between students and faculty members and the ability for students to obtain particularly relevant, extensive, hands-on clinical experience under supervision, especially in ambulatory settings.

At Queen's School of Medicine, students benefit from the integration of clinical and basic sciences, collaborating with other disciplines to further their knowledge.

Graduate Diploma Programs

Graduate Diploma in Biomedical Informatics

Offered by the Faculty of Arts and Science

Transforming how health care is approached and delivered through big data is the goal of our four-month graduate diploma in Biomedical Informatics. Innovative in design, and offered in partnership by the School of Computing and the Department of Biomedical and Molecular Sciences, the program's hands-on and applied nature of the program careers in health care and biomedical research. Whether you are interested in pursuing careers in genetics, pharmaceuticals, medicine, or biomedical research, understanding how to manipulate and use large datasets is essential for translating data into knowledge. Using a ladder approach, students can take the graduate diploma program, and then choose to continue on and complete a one-year master's program.

Learn more at bioinformatics.queensu.ca

Graduate Diploma in Risk Policy and Regulation (RPRD)

Offered by the Faculty of Arts and Science

RPRD is a four-month program, unique in Canada. The program is open to students who have already completed a master's level graduate studies in Economics or Financial Economics. It provides a strong emphasis on regulation, systemic risk, macroeconomics and macroeconomic policies (including macro-prudential policy). The program is both well-suited to those wishing to pursue careers in the public sector and designed to provide a broad perspective for those wishing to pursue careers in the private sector.

Learn more at risk.econ.queensu.ca

Graduate Diploma in Arts Management

Offered by the Faculty of Arts and Science

The new, six-week program focuses on developing 21st century leadership and management capabilities for those entering the arts sector. Course work covers strategic planning and thinking, a specific focus on comprehensive revenue development in arts marketing and philanthropy, cultural policy, contract negotiations and labour relations, financial and management accounting, and digital entrepreneurship. The diploma can be ladder up to a master's in Arts Leadership.

Learn more at queensu.ca/artsleadership

Graduate Diploma in Business

Offered by Smith School of Business

This program provides a broad overview of business fundamentals for non-business graduates. The knowledge and skills you will acquire in this program will open doors to a broad range of careers. Beginning in May, this four-month program is also a significant step toward an MBA degree from Smith School of Business at Queen's. Curriculum includes 10 courses:

- Leading with Integrity
- Financial Accounting
- Finance Fundamentals
- Professional Communication Skills
- Negotiations
- Economics & Industry Analysis
- Business & Corporate Strategy
- Managing Human Capital
- Marketing Fundamentals
- Operations & Supply Chain Management

Every course offered in the program will earn you credits toward your MBA at Smith. There are also options to apply credits to other business graduate programs at Smith.

Learn more at smithqueens.com/gdb

Graduate Diploma in Professional Inquiry

Offered by the Faculty of Education

This program is designed to teach students how to intentionally examine their teaching practice in order to understand more about it, develop innovative solutions, and affect change. In both public and private education sectors, inquiry is critical for informing teaching practice and student learning. The diploma consists of five courses: three required courses and two elective courses. Students may take one or two courses per term with start dates in July, September, or January. After completing the diploma, they may choose to continue their career or pursue the Professional Master's in Education (PME).

Learn more at educ.queensu.ca/gdpi

Graduate Diploma in Legal Services Management

Offered by the Faculty of Law

Canada's only online program that offers the fundamentals of business for the practice of law. It fits the busy schedules of law students and articling professionals by being available 100% online, and is taught by practitioners.

Learn more at lawmanagement.ca.

Study Abroad

International Opportunities with Queen's

Many Queen's students enhance their education with an international experience. You may choose to study for your entire first year or for an upper-year term at the Bader International Study Centre, Queen's campus in the United Kingdom. Or if your sights are set on an international exchange, you can take courses about a region's language, literature or culture before you go!

Choose to experience the world closer to home by getting involved in one of the many student-led organizations that are working to make life better for global citizens – socially, politically, environmentally and economically. Or, you may choose to enrol in the International Studies Certificate option, enhancing your undergraduate degree with a formal international program of study. Or participate in the many intercultural workshops offered by the International Centre (QUIC).

queensu.ca/international

An exchange is a great way to broaden your education and to experience life in another country. Thanks to agreements we have in place with universities around the world, we can offer our students exchange

opportunities from Australia to Uruguay and in almost every academic discipline.

See pages 66-67 for a list of places your Queen's exchange might take you.

Based on 2016-2017 Enrolment Data

STUDY ABROAD: UPPER-YEAR AT THE BISC

Take part in multiple field studies, turn theory into practice, and be active in your own learning. Upper-year programs at the Castle in the Fall, Winter, and Summer semesters provide students an opportunity for their voices to be heard in small classes, with exceptional international faculty, and to engage with alumni during career evenings.

All courses offered at the BISC include course-specific field study excursions and are available to all upper-year students. With class sizes limited in enrolment, students receive individual attention, creating a unique opportunity to dive deeper into subjects that matter to them.

Opportunities are available to eligible students after finishing their first year of university studies.

FALL

- General Program

WINTER

- General Program
- International Law and Politics
- Psychology
- British History
- Health Studies

**FOLLOW CURRENT CASTLE STUDENTS
ALL OVER THE BISC AND AROUND THE GLOBE!**

 [@queensBISC](https://www.instagram.com/queensBISC)

SUMMER

The BISC Summer School offers students the opportunity to get ahead of schedule by enrolling in three courses.

Our specialized programs in the summer are pre-packaged programs, designed to allow students to immerse themselves in course material that

includes extensive research and practical learning experiences in the field.

- Field school in British Archaeology
- Field school in Medieval Theatre Studies
- Interdisciplinary Studies in Global Health and Disability

EXAMPLE MID-TERM TRIPS

Fall: Northern England and Scotland

Winter: Paris, France

Field school in British Archaeology: Bath, UK

Field School in Global Project Management: London, UK

Interdisciplinary Studies in Global Health and Disability: Geneva, Switzerland

We support...
...SO YOU SUCCEED

queensu.ca/studentaffairs

Queen's offers a holistic student experience that starts before you arrive on campus and continues through to graduation

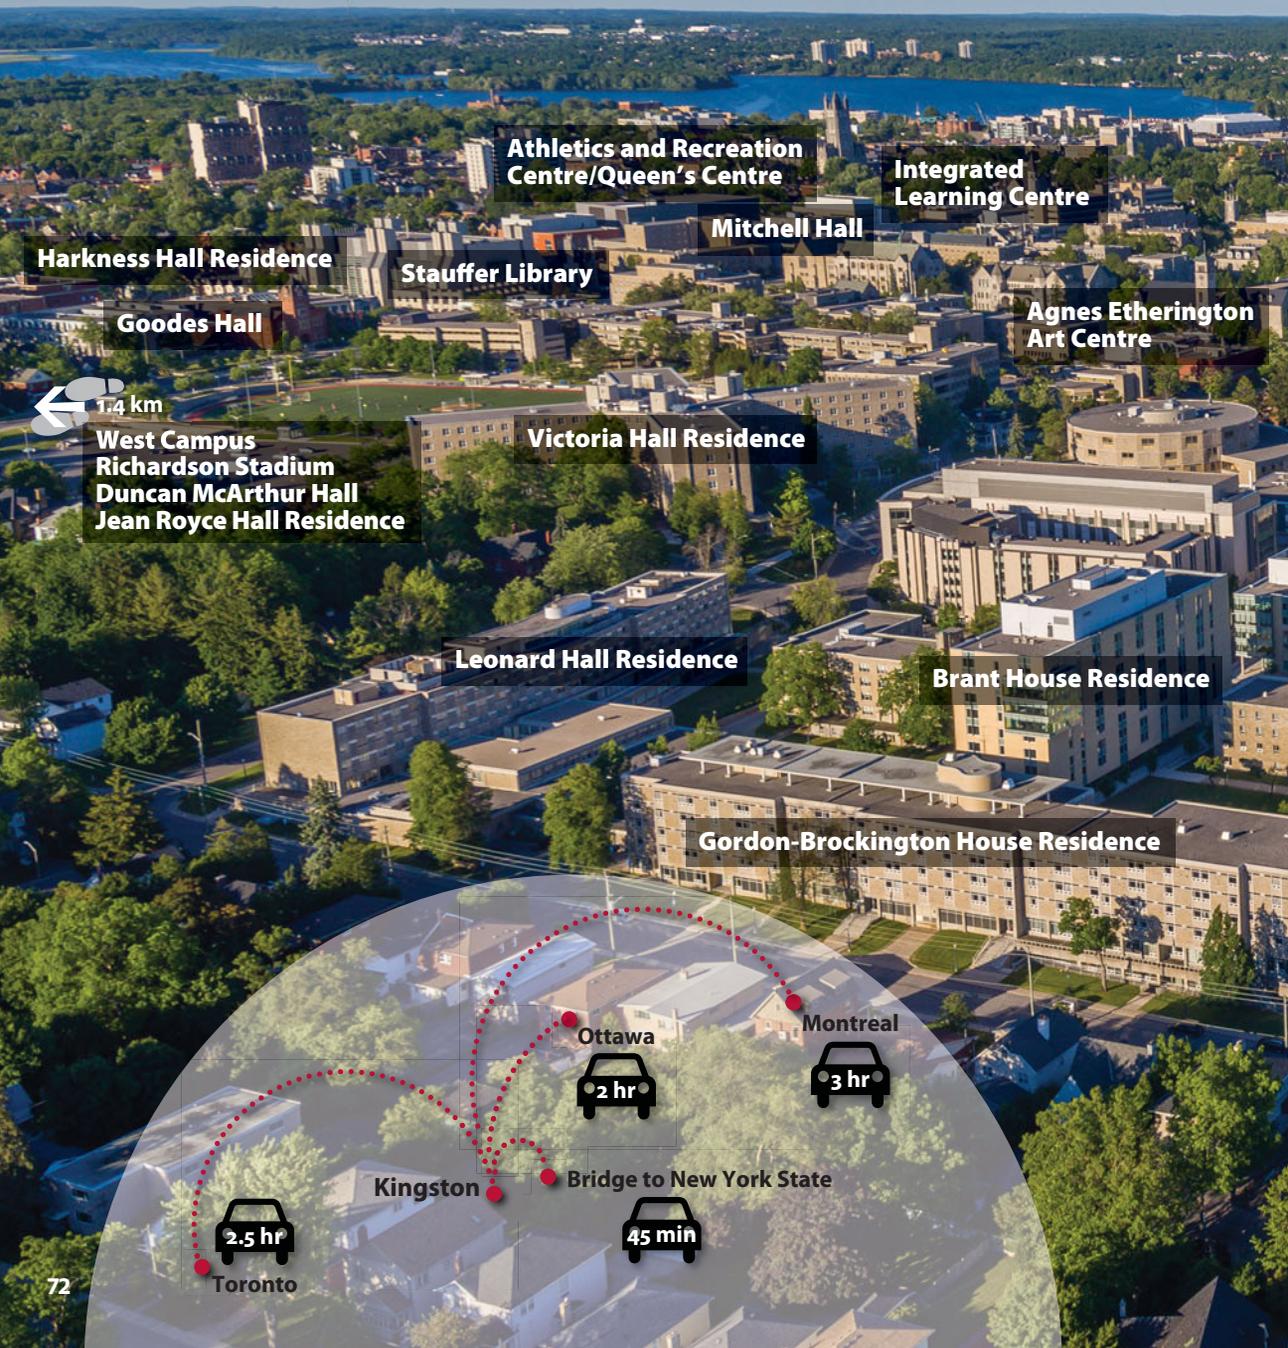

We can't wait to welcome you to the Kingston and Queen's community and support your transition to university life

We have a strong team of staff and senior students who are ready to help you build the academic and personal skills you need to thrive during your time at Queen's and beyond

We have loads of programs and services that give you tools to plan your career for success on whatever path you choose

See you on campus!

you're going to LOVE

Located across the street from Queen's, this free access beach is the best place to be on a warm day and is part of an 8km waterfront trail along the shores of Lake Ontario.

Kingston is a foodie's paradise. Immerse yourself in the field to fork movement at the Farmers' Market, dine on one of Kingston's many patios, or get your java jolt while studying in a cozy café.

Kingston has a ton to offer. Set alongside Lake Ontario, anywhere you go in downtown Kingston – and on campus – you're only minutes from the waterfront. Equally close to campus (about a 10-minute walk), is Kingston's bustling downtown, which is home to many unique-to-Kingston shops, big brands you'll recognize, and some of the best restaurants in Canada.

Add to this Kingston's many community events and friendly, charming vibe and it's easy to see why the BBC named Kingston one of the top five university towns in the world!

Fall is truly stunning on campus and in Kingston. Hike the local trails (Rock Dunder is a student favourite!), get spooked at Fort Fright or take a short, free ferry ride to explore Wolfe Island for the day.

KINGSTON

STUDENT LIFE **KINGSTON**

#queensu2024

visitkingston.ca

Winter in Kingston can be experienced indoors or out. Lace up your skates and hit the Springer Market Square, take in live music as part of Febfest or hunker down in a movie theatre during the Kingston Canadian Film Festival or Reelout Queer Film and Video Festival.

PREP FOR Life at Queen's

Connect with us on campus at Summer Orientation to Academics and Resources (SOAR) in July, and online all summer
queensu.ca/studentexperience/summer-orientation

Get one-on-one support from **Accessibility Services** to plan any academic accommodations you will need
queensu.ca/studentwellness/accessibility-services

Consult with our chefs or dietician to ensure you will get the most of your meal plan and **eat healthy and safely**
dining.queensu.ca

YOUR First Few Weeks

Your first days at Queen's are filled with community-building activities during our spirited student-led Orientation Week.

Meet peers from almost 100 countries in your faculty and school, as well as your floor mates in residence and first-year students living off-campus, affectionately known as FYNIRs.

queensu.ca/orientation/

As your studies start, we support your transition to university life with peer mentoring, one-on-one advising, info sessions, and workshops to help you excel in and outside of the classroom.

These programs help you find your place here, encourage you to develop a growth mindset, and connect you to the supports you may need on campus.

Find out information about all of these programs on the Student Experience Office website.

We're here for you!

queensu.ca/studentexperience

Canada's **definitive**
university experience

Student Academic **SUCCESS SERVICES**

Maximize Your Academic Potential

Learning at university requires new approaches to thinking, writing and studying.

Get ready for it!

Professional staff and peer volunteers offer one-on-one consultations, workshops and resources to support you in reaching your academic goals.

STUDENT ACADEMIC SUCCESS SERVICES (SASS) CAN HELP YOU ENHANCE YOUR SKILLS IN:

- Critical thinking**
- University-level writing**
- Understanding lectures**
- Reading efficiently**
- Studying effectively**
- Time management**
- Avoiding procrastination**
- English as an additional language**
- Upholding academic integrity**

Queen's RESIDENCE

Welcome to your first-year home!

- 90%+ of first-year students choose residence
- 4,500 students from 90+ countries
- 17 unique buildings on Main and West campuses
- Buildings vary in size, room types and amenities
- Room types include single, single plus, double, loft double, triple and quad
- Guaranteed housing for all first-year students who meet the application and deposit payment deadline of June 8
- Residence fee includes a mandatory meal plan of 19 meals per week, available at our 3 dining halls and 23 retail outlets

LIVING in Residence

Residence is a living and learning environment where you can feel a sense of belonging, experience diverse opportunities to build resilience, and access ongoing support to help achieve academic success.

Residence Life staff provide support through peer-to-peer connections, sharing knowledge about campus resources, helping you navigate the transition to university and planning events to build community.

- Make lifelong friends on your floor, in your building and across campus
- Social activities for everyone, from floor dinners and intramurals, to games nights and movie nights
- 180+ professional live-in staff and student leaders
- 24/7 front desks and residence-based security supervisors
- Transition supports, including embedded counsellors
- Faculty and interest-based Living Learning Communities, including Creative Arts, Active Living, Nursing, Computer Science, and Indigenous and Allies
- Academic supports including study sessions and academic resource fairs
- Wellness workshops led by peers, including pet therapy, and tips for healthy eating

ATHLETICS AND RECREATION

GO GAELS **GO!**

LEAD THE WAY

Over 23,000 different participation opportunities are offered in a broad range of programs, illustrating the vibrancy and importance of sport, physical activity and wellness as an integral part of campus life at Queen's.

gogaelsgo.com

WORK OUT SWIM PLAY

The Athletics and Recreation Centre (ARC)

Athletics and Recreation uses the state-of-the-art facilities across campus to maximize the fitness, intramurals, and sporting events available to students.

4 artificial turf fields

over **150** pieces of cardio equipment

Kingston's **largest** pool

6 gymnasiums

over **10 tons** of free weights

Open **16.5** hours a day (average)

open **360** days per year

Recreation

FITNESS AND WELLNESS PROGRAMS

Campus life is all about balance; our fitness and wellness programs offer a fun and convenient way to get active and meet new people while experiencing all that campus life has to offer. Queen's offers more than 30 fitness classes per week, as well as energetic fitness and wellness programs such as yoga, pilates, cardio, cycle, dance, strength and swimming.

Trouble deciding what to take? Try fitness classes for free during Fitness Free-For-All week in September and January.

Need help developing an individual fitness program? Book a consultation with one of our professional trainers – they will help you balance a healthy fitness program with your classes and give you the motivation you need to keep going!

INTRAMURALS

Over 7,900 students participate in 1,125 teams in intramurals – to stay in shape, enjoy your favourite sport and make new friends.

RECREATION CLUBS

Recreation clubs at Queen's University focus on participation-based physical activity. These clubs may include limited competition.

DANCE

ATHLETIC FINANCIAL AWARDS

- Student-athletes interested in playing for an interuniversity athletic team may be considered for an Athletic Financial Award
- Awards are administered per U SPORTS and Ontario University Athletics (OUA) regulations. Selection is also based on academic achievement and athletic excellence
- Recipients are selected by the Office of the University Registrar in consultation with the Office of Athletics and Recreation at Queen's

SUPPORTING

Your Health and Wellness

Student Wellness Services provides a range of student-focused services and programs to promote health and well-being, to build skills and strategies, to enable the equitable participation of students with disabilities, and to provide support and healthcare. Student Wellness Services includes the Gregory David and Neil Rossy Health Promotion Hub and the Côté Sharp Student Wellness Centre, both located in Mitchell Hall (pictured right).

- Get involved in health and wellness on campus! Volunteer for health and wellness initiatives or join our student wellness advisory group.
- Make your health and well-being a priority. Engage in self-care activities, build healthy lifestyle habits, attend mindfulness practice, or a workshop on sleep, food skills, or substance use.
- Learn to manage your stress – it is part of the growing and learning that comes with the university experience. Spend time with our pet therapy animals, join sessions tackling perfectionism, learn self-compassion, or find new ways to cope with the ups and downs of life.
- Join a group! We offer support groups, therapy groups, skill-building groups, drop-in groups, psychoeducational groups, and more.
- Access healthcare for your physical, mental, and sexual health. We have an interdisciplinary team of family doctors, nurses, occupational therapists, and mental health practitioners available, and specialized mental health support by referral.
- Plan ahead for your disability-related needs. If you are a student with a disability, schedule an advising appointment to develop a plan best suited to your needs. Connect with QSAS in the summer at queensu.ca/studentwellness/accessibility-services

queensu.ca/studentwellness

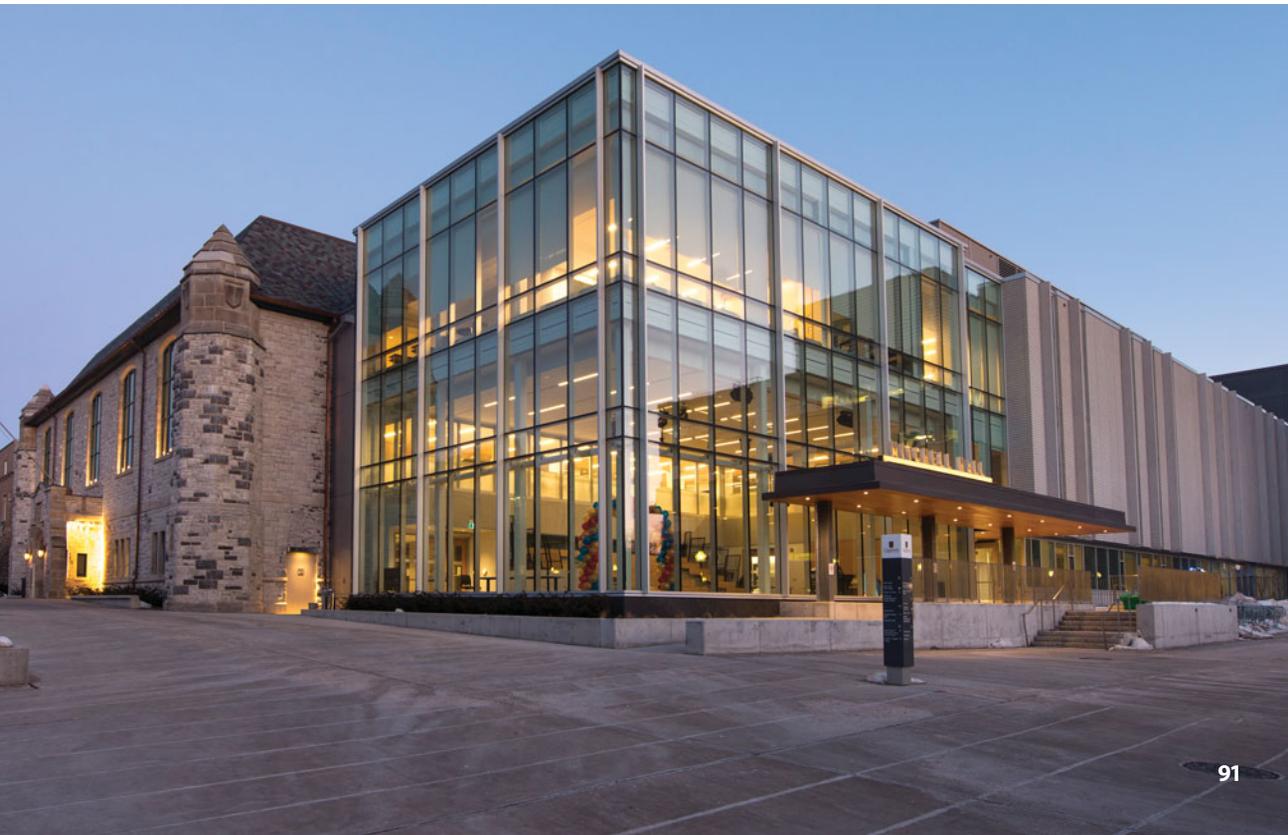

FAITH

and Spiritual Life

Mitchell Hall is also home to Faith and Spiritual Life.

- Meet with one of our Interfaith chaplains
- Pray, reflect, or meditate in our Interfaith room
- Drop-in for a cup of tea in our student lounge
- Take part in programs including Soulful Singing and Cooking with Grandmas

queensu.ca/faith-and-spiritual-life

QUEEN'S UNIVERSITY INTERNATIONAL CENTRE

**3,500
international
students
from 95+
Countries**

Come be part of the international community at The Queen's University International Centre (QUIC)! Our priorities are to help you be successful, achieve your academic goals, and to connect you with peers from around the world.

“ I have been at Queen's for almost three years. I still remember the first time when I walked into QUIC, the welcoming hospitality from everyone who works there or just visiting. I participated in a lot of QUIC activities, making new friends, improving English. Thanks to this, I felt being a part of Queen's and the country.”

Patrick, Faculty of Arts and Science

AT QUIC YOU WILL FIND:

- Welcome and orientation
- University Health Insurance Plan (UHIP)
- Social activities and spaces
- Work and volunteer opportunities
- English conversation program
- Housing search resources
- Advice about permits, visas and immigration
- Intercultural awareness training
- Academic supports
- Transition supports

QUIC is known for its engaging and welcoming community. Everyone joining our campus is rich with knowledge and experiences and we hope that you will take the opportunity to share them with us.

- Share your culture
- Bring your questions
- Get comfortable. Relax in our lounge
- Have lunch with new friends

“ My experience at QUIC has been great. I have been attending the English conversation group and I can recognize that my English skills have improved. I participated in many cultural events and my experience at QUIC has always been extremely positive.”

Anderson, Faculty of Arts and Science

quic.queensu.ca

Indigenous Community at Queen's

Hello, She:koli, Ahnii, Tansi,
Waachay, Oki, TAWNSKI, Kwe kwe,
Koolamalsil, She: kon, Tunngasugit,
Boozhoo, Bonjour!

Welcome to Four Directions!

Our newly expanded Four Directions Indigenous Student Centre (4D) is your home away from home – two neighbouring houses where you will find community, advice, support, and the answers to all of your questions.

- Social and cultural programming
- Access to Elders and traditional knowledge keepers
- 100+ events throughout the year
- Full kitchen facilities, food and feasts
- Free laundry
- Study spaces and lounges
- Library, resource and meeting rooms
- One-on-one meetings with a cultural counsellor
- Academic assistance, drop-in tutoring
- Career-related support

queensu.ca/fourdirections

QUESTIONS ABOUT QUEEN'S?

Our Indigenous Recruitment Representative is your primary contact throughout the application and admission process. Get in touch by emailing us at fd.recruiter@queensu.ca

INDIGENOUS STUDENT ADMISSION PATHWAY

Queen's offers Indigenous candidates an additional and alternate admission pathway that includes support through the admission process. Learn more: queensu.ca/admission/pathways-and-policies/indigenous

FINANCIAL AID

Queen's offers merit- and need-based financial awards to entering students who self-identify as First Nations, Inuit and Metis.

queensu.ca/studentawards/indigenous

STAND PROUD!

Students with Indigenous ancestry can self-identify to the university at any point during their time at Queen's. queensu.ca/fourdirections/self-identify

Get involved with Indigenous initiatives in the Queen's community!

INDIGENOUS AND ALLIES LIVING LEARNING COMMUNITY (LLC) IN RESIDENCE

The Bimaadiziwin Ka'nikonhrio floor is an interest-based LLC where both Indigenous and non-Indigenous students live and learn in an environment with an emphasis on intercultural understanding and leadership development.

QUEEN'S NATIVE STUDENT ASSOCIATION

A student-run club that brings together a diverse group of Indigenous and non-Indigenous students who share an interest in Indigenous cultures and traditions.

qnsaclub.wordpress.com

“4D gave me a place to feel at home away from home and the staff are remarkable. I always felt like there was a place for me at Four Directions and that I wasn't just another student.”

Katie, Faculty of Arts and Science

ROUND OUT YOUR QUEEN'S EXPERIENCE

Queen's offers practically every club imaginable – well, about 300 of them at least. Not a day goes by on campus without a practice, performance, conference, or competition taking place. Our student clubs enhance what you learn in the classroom – and give you the chance to embrace your passions.

From Amnesty International and Oxfam to Urban Snowboarding and Students of Speculative Realms, there's probably a club for you. Think of clubs as a way to network, gain valuable experience, and have some fun!

Career Services

Our Career Services, ranked #2 in Canada will help you access career supports and experiential learning activities so that you are career ready once you graduate.

- Chat with career advisors to help explore your options and design your unique future
- Build work experience with summer jobs, part-time jobs during the school year (on-and-off campus), internships, and jobs after graduation
- Meet employers at career fairs, and on-campus employer visits
- Strategize with advisors to write compelling resumes, cover letters, and applications to graduate and professional schools
- Network in our Student-Alumni online group to get advice and build connections with Queen's alumni all around the world

careers.queensu.ca

Queen's University Internship Program (QUIP)

- For second or third year students
- Get Job Ready. Gain valuable work experience before you graduate
- Engage and collaborate in significant projects over a 12 to 16-month work term
- Test drive your career choice and build your professional network in a field/industry of your choice
- Return to your final year of studies with renewed energy and a deeper skill set
- Average salary \$41,730

STUDENT TESTIMONIALS

“My internship experience was probably one of the best experiences of undergrad. It provided me with the chance to meet new people, work flexible hours, travel, and discover what type of career path I want to pursue moving forward.”

Anwar, Applied Economics, Statistics Canada

“Completing an internship was the best thing I could have done for myself! I was able to learn about the industry I envisioned myself entering, and I now get to graduate with 12 months of professional work experience.”

Candice, Gender Studies, Student Affairs, Queen's University

“This internship has provided me with invaluable opportunities to accelerate my career and my professional and personal development. I would have never expected such an enriching experience and I am pleased to have taken part in a QUIP internship.”

Natalie, Mechanical Engineering, National Research Council (NRC)

Map your career path from day one

Use the Major Maps to get examples and advice about courses, extracurriculars, international experiences and career steps for each year you'll be at Queen's.

Chemistry explores the composition, structure, and transformation of matter. Frequently called the central science, it provides the basis for studies in many other disciplines, ranging from biology to materials science, in addition to being a booming discipline of its own.

TOP 5 REASONS to study CHEMISTRY

- 1 Chemistry opens very broad career options.
- 2 With extensive experimental training, Chemistry studies are very hands-on and fun!
- 3 Queen's Chemistry Department is a very supportive and nurturing environment; our graduating class is small and close-knit.
- 4 All major and specialization students conduct research in fourth year as part of their plan.
- 5 Queen's Chemistry programs are accredited by the Canadian Society for Chemistry.

ALUMNI JOBS

- 11% of alumni work in **HEALTH & MEDICINE**
- 14% of alumni work in **RESEARCH & DEVELOPMENT**
- 32% of alumni work in **EDUCATION**

ALUMNI STORY

Not too long ago, Jenny Du was a student at Queen's. Now she's living the California lifestyle at a cool startup. As the Director of Extraction, Jenny works with a team at Apeel Sciences to use natural plant extracts to formulate edible coatings that work to extend the shelf-life of fresh produce.

HISTORY

HIST-M-BAH Major (Arts) Bachelor of Arts (Honours)

The study of history will help you sharpen your skills of analysis, discussion, research, and writing - all while critically exploring the roots of contemporary issues throughout the world. Students of history at Queen's can explore a broad menu of topics, as diverse as the Crusades, Slavery, and Race Relations, Indigenous History in the Americas, the Russian Revolution, 20th Century Canada, the Economic Development of Africa, and the Perception and Treatment of Women in North America.

There is a customized map for each program at Queen's careers.queensu.ca/majormaps

TOP 10 REASONS to study HISTORY

1. Learn from world-recognized scholars whose research and curiosities span the globe.
2. Critically explore the roots of contemporary issues throughout the world.
3. Examine a variety of historical periods, places, and peoples.
4. A History degree provides a sound preparation for careers in education, law, public service, and business.
5. The department offers small seminars from years one through four.

ALUMNI JOBS

- 7% of alumni work in **BANKING, INVESTMENT & INSURANCE**
- 9% of alumni work in **LAW**
- 15% of alumni work in **GOVERNMENT & NON-PROFIT**
- 32% of alumni work in **EDUCATION**

Our alumni also work in fields such as **media libraries and archives, management, museums, and in researchers and consultants for industry.**

Studying in the Queen's History department taught me a number of great things, including that I know a small fraction of what there is to know, but that I have the capacity to learn a lot through discussion, analysis and hard work."

5

Check your To-Do List, and Application Status and apply for an Admission Bursary on SOLUS my.queensu.ca

Ensure you get our emails!
Make @queensu.ca a safe sender.

ADMISSION PATHWAY FOR INDIGENOUS STUDENTS

Queen's offers Indigenous candidates an additional and alternative pathway for admission to the first year of a full-time, first-entry undergraduate degree program, known as the Indigenous Admission Policy.

Indigenous candidates apply through the Ontario Universities' Application Centre (OUAC) and self-identify as having Indigenous ancestry. Candidates must meet the general admission requirements for each program and deadlines for undergraduate admission. This may also include completion of the Personal Statement of Experience (PSE) and any applicable Supplementary Essays (SE), as well as audition or portfolio submission requirements.

Candidates seeking admission consideration under this policy should submit a separate letter to the Indigenous Community Liaison stating that they wish to be considered under this policy along with proof of Indigenous ancestry (First Nation, Status/Non-Status, Métis or Inuit). Admission to Queen's University will depend on the assessment of the student's program prerequisites (or equivalencies) as well as the student's overall average and submission of the Personal Statement of Experience and/or Supplemental Essay. The number of students admitted each year under this policy will be determined in the annual enrolment plan upon consultation with the faculties and schools. For more information, please email the Indigenous Outreach Liaison queensu.ca/admission/pathways-and-policies/indigenous

FIRST-GENERATION STUDENT ADMISSION PATHWAY

Queen's encourages participation in post-secondary education by First-Generation students. We offer First-Generation candidates, including Pathways to Education students, Leadership by Design participants, Extended Society Care students, Big Brothers and Big Sisters Pumped for Post-Secondary program, and members of the Boys and Girls Club Raising the Grade program, an additional and alternative admission pathway to the first year of a full-time, first-entry undergraduate degree program.

Offers of admission will be made to First-Generation candidates whose total application shows strong evidence of academic preparedness and potential. Students will be introduced to the contacts and services available at the Student Experience Office and the Student Awards Office during the application process, and upon admission. Queen's University encourages students to access these services throughout their time at Queen's. Students who are admitted through this pathway will be encouraged to make use of the academic advising and academic support services available to all students at Queen's University. queensu.ca/admission/pathways-and-policies/first-generation

Apply

Competitive Averages for Admission Consideration

The table below corresponds to the minimum average (based on prerequisite courses) that was required for admission consideration for September 2019. **Please Note:** Applicants are admitted on the basis of grades **as well as** supplementary information. Preference is given to applicants with the strongest overall qualifications.

Programs	Number of first-year spaces (2020)	High School Percentage Grade	International Baccalaureate	High School GPA (4.3 Scale)	GCE	French Baccalaureat	Canadian College Diploma Program

The minimum admission average is 75% or equivalent however, the actual requirement may be higher than the minimum levels stated. For information about online program requirements, please visit queensu.ca/onlinelearning

Canadian Education Systems

Admission Requirements and Prerequisites (Secondary School Diploma or stated equivalent. Competitive admission averages are listed on page 103)

** Engineering admission average is calculated using only the prerequisite subjects.

	# OF SPACES ALLOCATED TO 1ST YEAR IN 2020	ONTARIO	BRITISH COLUMBIA/YUKON
GENERAL REQUIREMENTS			
		The Ontario Secondary School Diploma (OSSD), and six 4U/4M courses. Students must have a minimum of three 4U courses, except where stated otherwise. Students in francophone schools may offer EAE4U or FRA4U in place of ENG4U.	Provincial High School Diploma. Four academic courses including English at the Grade 12 level. Please note: students who completed English 12 prior to September 2019 will be required to include the English 12 Provincial Exam result. * Biology 12 may be used in place of Anatomy and Physiology 12.
PROGRAMS			
Faculty of Arts and Science		English 4U, plus two additional 4U courses. Additional three required courses may be either 4U or 4M.	English 12, plus three additional academic Grade 12 courses.
Arts (QA)	1414		
Arts (at the BISC) (QIA)	73		
Concurrent Education/Arts (QB)	169		
Concurrent Education/Arts (at the BISC) (QIB)	25		
QBridge Arts (QXA)	40		
Science (QS)	923	English 4U, Advanced Functions 4U, Calculus and Vectors 4U, plus two of Biology 4U, Chemistry 4U or Physics 4U. Additional required course may be 4U or 4M.	English 12, Pre-Calculus 12, plus two of Anatomy and Physiology 12, Calculus 12, Chemistry 12 or Physics 12. Calculus 12 is recommended.
Science (at the BISC) (QIS)	35		
Concurrent Education/Science (QF)	73		
Concurrent Education/Science (at the BISC) (QIF)	5		
QBridge Science (QXS)	25		
Computing (QD)	194	English 4U, Advanced Functions 4U, and Calculus and Vectors 4U. Additional three required courses may be either 4U or 4M.	English 12, Pre-Calculus 12, plus two additional academic Grade 12 courses. Calculus 12 is recommended.
QBridge Computing (QXD)	10		
Fine Art (Visual Art) (QT)	19	English 4U, one additional 4U course. Additional four required courses may be either 4U or 4M. Art is recommended but not mandatory. Portfolio Examination.	English 12, plus three additional academic Grade 12 courses. Portfolio Examination.
Concurrent Education/Fine Art (Visual Art) (QTT)	10		
Music (QM)	15	English 4U, one additional 4U course. Additional four required courses may be 4U or 4M. Personal audition, interview and theory test.	English 12 plus three additional academic Grade 12 courses. Personal audition, interview and theory test.
Concurrent Education/Music (QMM)	15		
Music Theatre (QMT)	20	English 4U, one additional 4U course. Additional four required courses may be either 4U or 4M. Personal audition.	English 12, plus three additional academic Grade 12 courses. Personal audition.
Kinesiology (QK)	155	English 4U, Advanced Functions 4U, Biology 4U, plus two of Calculus and Vectors 4U, Chemistry 4U or Physics 4U. Additional required course may be 4U or 4M.	English 12, Anatomy and Physiology 12*, Pre-Calculus 12, plus one of Calculus 12, Chemistry 12, or Physics 12.
Smith School of Business Commerce (QC)	500	English 4U, Calculus and Vectors 4U, and one additional 4U Mathematics course, with minimum grades of 80% in these three prerequisite courses. Additional three required courses may be either 4U or 4M. No more than two 4M courses from the same discipline. Personal Statement of Experience and Supplementary Essay.	English 12, Calculus 12 or Pre-Calculus 12 with minimum grades of 80% in these prerequisite courses, plus two additional academic Grade 12 courses. Personal Statement of Experience and Supplementary Essay.
Faculty of Engineering and Applied Science**		English 4U with a minimum grade of 70%, Calculus and Vectors 4U, Chemistry 4U, Physics 4U, plus one of Advanced Functions 4U, Biology 4U, Data Management 4U, Computer Science 4U, or Earth and Space Science 4U.	English 12 with a minimum grade of 70%, Calculus 12 or Pre-Calculus 12, Physics 12 and Chemistry 12.
Engineering (QE)	740		
Electrical and Computer Engineering Stream (QEC)	50		
QBridge Engineering (QXE)	15		
Faculty of Health Sciences		English 4U with a minimum grade of 80%, Biology 4U, Chemistry 4U, plus any 4U Mathematics course. Additional two required courses may be either 4U or 4M.	English 12 with a minimum grade of 80%, Anatomy and Physiology 12*, Chemistry 12, plus one of Pre-Calculus 12, Calculus 12 or Foundations of Math 12.
Health Sciences (QH)	170		
Nursing Science (QN)	99	English 4U with a minimum grade of 75%, Biology 4U, Chemistry 4U, plus any 4U Mathematics course. Additional two required courses may be either 4U or 4M.	English 12 with a minimum grade of 75%, Anatomy and Physiology 12*, Chemistry 12, plus one of Pre-Calculus 12, Calculus 12 or Foundations of Math 12.

		# OF SPACES ALLOCATED TO 1ST YEAR IN 2020	ALBERTA/NWT/NUNAVUT	SASKATCHEWAN
		GENERAL REQUIREMENTS		
			Provincial High School Diploma. Five academic courses numbered 30 or 31, including English 30-1.	Provincial High School Diploma. Five academic courses, including English 30A and 30B. Note: Both English 30A and 30B (or Français 30) are required for admission. Queen's uses the higher of the two grades in calculating the admission average. [†] Mathematics 30B can be used in place of Pre-Calculus 30
PROGRAMS				
Faculty of Arts and Science			English 30-1, plus four additional academic 30 or 31 level courses.	English 30A and 30B, plus four additional academic courses at the 30 level.

Canadian Education Systems

Admission Requirements and Prerequisites (Secondary School Diploma or stated equivalent. Competitive admission averages are listed on page 103)

** Engineering admission average is calculated using only the prerequisite subjects.

# OF SPACES ALLOCATED TO 1ST YEAR IN 2020	MANITOBA	QUEBEC CÉGEP
GENERAL REQUIREMENTS		
	Provincial High School Diploma. Five academic courses including an English Focus course at the 40S level.	Candidates who will have completed at least 12 academic subjects (excluding physical education courses that begin with 109) in a pre-university program are eligible for admission to year one. Those who complete their DEC in a two-year pre-university program are also eligible for first-year admission and receive a maximum of 18 credit units. Students from French CÉGEPs may offer two courses in Français in lieu of English pre-requisites for all programs except Nursing, which requires a minimum of one semester of an English literature course (that begin with 603).
PROGRAMS		
Faculty of Arts and Science		
Arts (QA)	1414	English 40S, plus four additional academic 40S level courses.
Arts (at the BISC) (QIA)	73	
Concurrent Education/Arts (QB)	169	
Concurrent Education/Arts (at the BISC) (QIB)	25	
QBridge Arts (QXA)	40	
Science (QS)	923	English 40S, Pre-Calculus 40S, plus two of Biology 40S, Chemistry 40S, Applied Mathematics 40S, or Physics 40S, and one additional academic 40S level course.
Science (at the BISC) (QIS)	35	
Concurrent Education/Science (QF)	73	
Concurrent Education/Science (at the BISC) (QIF)	5	
QBridge Science (QXS)	25	
Computing (QD)	194	English 40S, Pre-Calculus 40S, plus three additional academic 40S level courses.
QBridge Computing (QXD)	10	
Fine Art (Visual Art) (QT)	19	English 40S, plus four additional academic 40S level courses. Portfolio Examination.
Concurrent Education/Fine Art (Visual Art) (QTT)	10	
Music (QM)	15	English 40S, plus four additional academic 40S level courses. Personal audition, interview and theory test.
Concurrent Education/Music (QMM)	15	
Music Theatre (QMT)	20	English 40S, plus four additional academic 40S level courses. Personal audition.
Kinesiology (QK)	155	English 40S, Biology 40S, Pre-Calculus 40S, plus two of Applied Mathematics 40S, Chemistry 40S, or Physics 40S.
Smith School of Business Commerce (QC)	500	English 40S, Pre-Calculus 40S with minimum grades of 80% in these two prerequisite courses; plus three additional 40S level courses. Personal Statement of Experience and Supplementary Essay.
Faculty of Engineering and Applied Science**		
Engineering (QE)	740	English 40S with a minimum grade of 70%, Chemistry 40S, Pre-Calculus 40S, and Physics 40S.
Electrical and Computer Engineering Stream (QEC)	50	
QBridge Engineering (QXE)	15	
Faculty of Health Sciences Health Sciences (QH)	170	English 40S with a minimum grade of 80%, Biology 40S, Chemistry 40S, any 40S Mathematics, plus one additional 40S level course.
Nursing Science (QN)	99	English 40S with a minimum grade of 75%, Biology 40S, Chemistry 40S, any 40S Mathematics, plus one additional 40S level course.

# OF SPACES ALLOCATED TO 1ST YEAR IN 2020		NEW BRUNSWICK	NOVA SCOTIA
GENERAL REQUIREMENTS			
		Provincial High School Diploma. Five academic courses, including English 122. Prerequisite subjects at the 122 level preferred.	Provincial High School Diploma. Five academic courses, including English at the Grade 12 level.
		* Calculus 120 can be used in place of Pre-Calculus 12A and 12B

Baccalaureate and College Systems

Admission Requirements and Prerequisites (Secondary School Diploma or stated equivalent. Competitive admission averages are listed on page 103).

# OF SPACES ALLOCATED TO 1ST YEAR IN 2020	INTERNATIONAL BACCALAUREATE	FRENCH BACCALAUREAT	CANADIAN COLLEGE DIPLOMA PROGRAM
GENERAL REQUIREMENTS			
	Full Diploma candidates who achieve passes in six subjects with three at the higher level, no mark lower than a 4 in pre-requisite subjects, and who accumulate a minimum grade total of 28 (not including diploma points) are eligible for admission consideration to first year. ^SL Mathematical Studies and SL Applications and Interpretations are not acceptable prerequisites.	Completion of the Baccalaureat du Second Degré program.	Applicants who have completed: a one-year diploma program (or one year of a two or three-year diploma program) are not eligible for admission consideration unless they have completed their High School Diploma. A two-year diploma program (or two years of a three-year diploma program) is eligible to be considered for admission to the first year of a degree program, and may receive a maximum of 18 credit units depending on the program.
PROGRAMS			
Faculty of Arts and Science	English	Anglais/Français	No prerequisite subjects. Note: First-Year Studies in England (QIA) and Concurrent Education/Arts (QB/QB) not open to 3 yr. diploma nor 4 yr. degree graduates.
Arts (QA)	1414		
Arts (at the BISC) (QIA)	73		
Concurrent Education/Arts (QB)	169		
Concurrent Education/Arts (at the BISC) (QIB)	25		
QBridge Arts (QXA)	40		
Science (QS)	923	English, Mathematics^	Baccalaureat S.
Science (at the BISC) (QIS)	35	plus two of Biology, Chemistry or Physics.	Advanced Functions 4U, Calculus and Vectors 4U, plus two of Biology 4U, Chemistry 4U or Physics 4U (or equivalent). Note: First-Year Studies in England (QIS) and Concurrent Education/Science (QF) not open to 3 yr. diploma nor 4 yr. degree graduates.
Concurrent Education/Science (QF)	73		
Concurrent Education/Science (at the BISC) (QIF)	5		
QBridge Science (QXS)	25		
Computing (QD)	194	English and Mathematics^	Baccalaureat S, L or ES with Mathematics specialty.
QBridge Computing (QXD)	10		Advanced Functions 4U, Calculus and Vectors 4U.
Fine Art (Visual Art) (QT)	19	English. Portfolio Examination.	Anglais/Français. Portfolio Examination.
Concurrent Education/Fine Art (Visual Art) (QTT)	10		No prerequisite subjects. Note: Concurrent Education/ Fine Art (QTT) not open to 3 yr. diploma nor 4 yr. degree graduates.
Music (QM)	15	English. Personal audition, interview and theory test.	Anglais/Français. Personal audition, interview and theory test.
Concurrent Education/Music (QMM)	15		No prerequisite subjects. Personal audition, interview and theory test. Note: Concurrent Education/Music (QMM) not open to 3 yr. diploma nor 4 yr. degree graduates.
Music Theatre (QMT)	20	English. Personal Audition.	Anglais/Français. Personal Audition.
			No prerequisite subjects. Personal Audition.
Kinesiology (QK)	155	Biology, English and Mathematics^, plus one of Chemistry, Physics, or Sports Exercise and Health Science.	Baccalaureat S.
			Biology 4U, Advanced Functions 4U, plus two of Calculus and Vectors 4U, Chemistry 4U or Physics 4U.
Smith School of Business Commerce (QC)	500	Mathematics^ and English. Minimum English and Mathematics score of 5. (Predicted/final) Personal Statement of Experience and Supplementary Essay.	Baccalaureat S or L or ES with Mathematics Specialty: Minimum language (Anglais/Français) and Mathematics grades of 12. Personal Statement of Experience and Supplementary Essay.
Faculty of Engineering and Applied Science		Mathematics^, Chemistry, Physics and English. Minimum English score of 4. (Predicted/final)	Baccalaureat S. Minimum language (Anglais/Français) grade of 11.
Engineering (QE)	740		Calculus and Vectors 4U, Chemistry 4U, Physics 4U, plus one of Advanced Functions 4U, Biology 4U, Data Management 4U, Computer Science 4U or Earth and Space Science 4U (or equivalent). Graduates of Technology programs are considered for first year. Exemptions for upper-year courses may be granted after the completion of the common first year and an engineering discipline has been chosen.
Electrical and Computer Engineering Stream (QEC)	50		
QBridge Engineering (QXE)	15		
Faculty of Health Sciences		Biology, Chemistry, English and Mathematics. Minimum English score of 5. (Predicted/final)	Baccalaureat S. Anglais minimum grade of 12.
Health Sciences (QH)	170		Biology 4U, Chemistry 4U, and any 4U Mathematics (or equivalent).
Nursing Science (QN)	99	Biology, Chemistry, English and Mathematics. Minimum English score of 4. (Predicted/final)	Baccalaureat S. Anglais minimum grade of 11.
			Biology 4U, Chemistry 4U, and any 4U Mathematics (or equivalent).

Admission Requirements and Prerequisites (Secondary School Diploma or stated equivalent. Competitive admission averages are listed on page 103).

** Engineering admission average is calculated using only the prerequisite subjects.

# OF SPACES ALLOCATED TO 1ST YEAR IN 2020	AMERICAN SCHOOL SYSTEM/ ADVANCED PLACEMENT (AP)*	GENERAL CERTIFICATE OF EDUCATION (GC BRITISH-PATTERNED CURRICULA)
GENERAL REQUIREMENTS		
	Grade 12 graduation with a minimum GPA of B- on four senior level academic courses from an accredited high school. Prerequisite courses must be completed in the Junior or Senior year. Prerequisite courses completed during the Freshman or Sophomore year are not accepted. SAT/ACT results may be required, regardless of citizenship (minimum score of 1200 with no less than 580 Evidence Based Reading and Writing and 520 Mathematics. ACT score of 26. A school profile is required. (College Board code 0949; ACT Institutional Code 5236).	Candidates who complete seven subjects with at least three at the Advanced Level or equivalent (excluding the General Paper) will be eligible for admission consideration. Competitive grades at the Advanced Level must be "B" or higher. Grades at the GCSE or IGCSE level must be "C" or higher.
PROGRAMS		
Faculty of Arts and Science	Grade 12 English (two terms).	English at the GCSE or IGCSE Level.
Arts (QA)	1414	
Arts (at the BISC) (QIA)	73	
Concurrent Education/Arts (QB)	169	
Concurrent Education/Arts (at the BISC) (QIB)	25	
QBridge Arts (QXA)	40	
Science (QS)	923	Grade 12 English (two terms). Four full-year courses in each of Mathematics and Science. One (preferably two) full-year courses in two of Biology, Chemistry or Physics; to be completed in the Junior or Senior year.
Science (at the BISC) (QIS)	30	
Concurrent Education/Science (QF)	73	
Concurrent Education/Science (at the BISC) (QIF)	5	
QBridge Science (QXS)	25	
Computing (QD)	194	Grade 12 English (two terms), four full-year courses in Mathematics. Calculus is recommended.
QBridge Computing (QXD)	10	
Fine Art (Visual Art) (QT)	19	Grade 12 English (two terms). Portfolio Examination.
Concurrent Education/Fine Art (Visual Art) (QTT)	10	English at the GCSE or IGCSE Level. Portfolio Examination.
Music (QM)	15	Grade 12 English (two terms). Personal audition, interview and theory test.
Concurrent Education/Music (QMM)	15	
Music Theatre (QMT)	20	Grade 12 English (two terms). Personal Audition.
Kinesiology (QK)	155	Grade 12 English (two terms). Four full-year courses in each of Mathematics and Science. Biology and one of Chemistry or Physics to be completed in the Junior or Senior Year.
Smith School of Business	500	Grade 12 English (two terms), four full-year courses in Mathematics. AP Calculus is recommended. Minimum English and Mathematics grades of 80% or equivalent. Personal Statement of Experience and Supplementary Essay.
Commerce (QC)		
Faculty of Engineering and Applied Science**	740	Grade 12 English (two terms). Four full-year courses in Mathematics and Science. One (preferably two) full-year courses in each of Chemistry and Physics. Chemistry and Physics to be completed in Junior or Senior year. Minimum English grade of 70% or equivalent.
Engineering (QE)		
Electrical and Computer Engineering Stream (QEC)		
QBridge Engineering (QXE)		
Faculty of Health Sciences	170	Grade 12 English (two terms). Four full-year courses in Mathematics and Science, one, (preferably two), full-year courses in Biology and Chemistry. Biology and Chemistry to be completed in Junior or Senior year. Minimum English grade of 80% or equivalent.
Health Sciences (QH)		
Nursing Science (QN)	99	Grade 12 English (two terms). Four full-year courses in Mathematics and Science, one, (preferably two), full-year courses in Biology and Chemistry. Biology and Chemistry to be completed in Junior or Senior year. Minimum English grade of 75% or equivalent.
		Biology, Chemistry and Mathematics at the Advanced Level. English, Biology, Chemistry and Mathematics at the GCSE or IGCSE Level. Minimum English grade of B.

OF SPACES
ALLOCATED
TO 1ST YEAR
IN 2020

	INDIA	CHINA	INTERNATIONAL SCHOOL SYSTEMS
GENERAL REQUIREMENTS			
	All India Senior School Certificate (awarded by CBSE) or the Indian School Certificate (awarded by CISCE). Grades required for admission will vary by program but, based on the India grading scale, the minimum academic standing needed to fall within the competitive range is 75%. Year 12 State Board Exams with excellent results will also be considered individually. Interim / predicted year 12 grades or pre-board exam results will be used for applicants currently attending secondary school. Final Class XII Board Exams will be used for secondary school graduates.	Upper Middle School Graduation Certificate. Students currently in Secondary School will be required to submit their Senior Middle School Graduation Examination results (Hui Kao). For students who have graduated from Secondary School, Gao Kao results are required. Both Gao Kao and Hui Kao results must be verified by the China Higher Education Student Information and Career Center (CHESICC), www.chsi.com.cn . Notarized copies are not acceptable. Grades required for admission will vary by program, but based on the Chinese grading scale, the minimum average needed to be competitive is 80%.	Normally, candidates who have achieved admission level for universities in their own countries are eligible for admission consideration. Since specific requirements cannot be established on a general basis, applicants will receive individual consideration. Specific country requirements may be found on our website at queensu.ca/admission . † English is a required prerequisite for all programs unless it is not an official language of the country.
PROGRAMS			
Faculty of Arts and Science		English at the Standard XII Level.	English†
Arts (QA)	1414	No prerequisite subjects.	
Arts (at the BISC) (QIA)	73		
Concurrent Education/Arts (QB)	169

Music Theatre (QMT)	20	English at the Standard XII Level.	English† Personal Audition.
		Personal Audition.	
Kinesiology (QK)	155	English, English and Mathematics, plus one of Chemistry or Physics at the Standard XII Level.	Biology, English† and Mathematics, plus one of Chemistry or Physics in the final secondary year.
Smith School of Business		English and Mathematics at the Standard XII Level with minimum grades of 80%. Personal Statement of Experience and Supplementary Essay.	English† and Mathematics in final secondary school year, with minimum grades of 80% or equivalent. Personal Statement of Experience and Supplementary Essay.
Commerce (QC)	500		
Faculty of Engineering and Applied Science**		English, Chemistry, Mathematics and Physics at the Standard XII Level. Minimum English grade of 70%.	English†, Chemistry, Mathematics and Physics in the final secondary school year. Minimum English* grade of 70% or equivalent.
Engineering (QE)	740		
Electrical and Computer Engineering Stream (QEC)	50		
QBridge Engineering (QXE)	15		
Faculty of Health Sciences		English, Biology, Chemistry, and Mathematics at the Standard XII Level. Minimum English grade of 80%.	English Literature, Biology, Chemistry and Mathematics in the final secondary school year. English is required for all educational systems. Minimum English Literature* grade of 80% or equivalent.
Health Sciences (QH)	170		
Nursing Science (QN)	99	English, Biology, Chemistry, and Mathematics at the Standard XII Level. Minimum English grade of 75%.	English Literature, Biology, Chemistry and Mathematics in the final secondary school year. English is required for all educational systems. Minimum English Literature* grade of 75% or equivalent.

Personal Statement of Experience (PSE) and Supplementary Information queensu.ca/admission/about-applying/pse

Admission at Queen's is very competitive and we may use supplemental information including the Personal Statement of Experience, Supplementary Essay, Audition and Portfolio where required and your academic record to help make admission decisions.

FOR MOST PROGRAMS

For all programs, except Commerce, completion of the Personal Statement of Experience (PSE) is recommended. The PSE is your opportunity to tell us more about yourself and what you are doing outside the classroom.

For applicants whose marks fall within a critical range, we may consider your PSE, in support of your application to the program.

The minimum admission average and the number of students selected based on the PSE vary between programs and from year-to-year. It is also dependent on the number of applicants to the program, the academic strength of the applicants in a given year, the number of spaces available, and any additional admission circumstances in a given year.

The recommended last date to submit the PSE is February 1.

FOR COMMERCE

For the Commerce program, the PSE and Supplementary Essay are required documents and the recommended last date to submit is February 1.

FOR CONCURRENT EDUCATION

For any of Queen's Concurrent Education programs, the PSE and Supplementary Essay are recommended documents. Please be sure to discuss a future in education if you complete the PSE and Supplementary Essay for Con-Ed. The recommended last date to submit is February 1.

AUDITION

Music and Music Theatre

Applicants to the Bachelor of Music program and the Bachelor of Music Theatre program are required to audition. For details on the audition, please visit sdm.queensu.ca

PORTFOLIO

Fine Art (Visual Art)

Applicants to the Bachelor Fine Art (Visual Art) program are required to submit a portfolio no later than February 1. For details on the portfolio, please visit queensu.ca/bfa/admissions

EXTENUATING CIRCUMSTANCES

If there are any factors that clearly demonstrate significant extenuating circumstances beyond your control, which have affected your academic performance in high school at some point during the past two years, please submit a separate letter along with supporting documentation to:

queensu.ca/admission/extenuating

Your Queen’s Student I.D. must appear on all correspondence.

Any information you submit will be used in your admission file only and will not be forwarded to any office within the university or further reviewed if you are admitted and subsequently register. If you become a registered Queen’s student and you wish to receive health care, professional counselling or academic accommodations for a disability, please contact Student Wellness and Accessibility Services queensu.ca/studentwellness.

ENGLISH LANGUAGE PROFICIENCY

Applicants who meet one of the following criteria are not required to submit a standardized English Language Test Score (eg. TOEFL, IELTS).

- Completed an IB diploma in English (completion of SL English B is not sufficient)
or
- Completed the full GCE program (O Level, A/S Level, and Advanced Level)
or
- Lived in a country where English is the acknowledged primary language for the most recent three years prior to beginning their university studies
or
- Attended an education institution full-time where the medium of instruction is English for the most recent three years prior to beginning their university studies
or
- Has successfully completed QBridge – English Bridging Pathway at Queen’s School of English (Learn more on page 54)

Test	Minimum Score(s)
Test of English as a Foreign Language (TOEFL) Institution Code: 0949	iBT (Internet Based TOEFL)/88 overall: 24 Writing, 22 Speaking 22 Reading, 20 Listening (Paper Based TOEFL (PBT)/580)
International English Language Testing System (IELTS)	Score of 6.5 on Academic Module with no band below 6.0
Pearson Test of English (PTE Academic)	Overall score of 60
Queen’s School of English	Successful completion of QBridge Pathway

HIGH SCHOOL APPLICANT TRANSCRIPTS

Depending on the province/country where you are currently enrolled in school, your first term or first semester results in current year and your second term course registrations (if applicable) must be sent to us from:

Canadian Province/ Country	Send transcript from
AB, BC, MB, NB, NL, NS, NT, NU, PE, SK, YT	Directly from your high school
ON	Automatically sent via OUAC
QC	Automatically sent via OUAC if Quebec CÉGEP code is present on application
USA	Directly from your high school
International	Directly from your high school or exam board

Please note that high school issued transcripts must include a seal and official signature.

Please review your offer of admission for instructions on sending Final Transcripts.

queensu.ca/admission/about-applying/documents

OFFICIAL DOCUMENTATION

An official document must:

- Bear the original institutional seal, stamp, or signature
- Be sent directly to Queen’s Undergraduate Admission by your school electronically or in a sealed school envelope. The address is listed on the back of this Viewbook. Transcripts mailed directly from the student will not be accepted.
- Be in the original language

Please note: Notarized copies are not acceptable.

Admission Scholarships

About: Queen’s grade-based automatic admission scholarships recognize your academic achievement. No application is required. Eligible students will be granted a firm scholarship offer at the time they are admitted to Queen’s.

Need To Know

1

Students with an award average of 90%+ are eligible.

2

Scholarships available to all first year applicants admitted to a first entry undergraduate degree program.

3

Over 60% of Queen’s first-entry undergraduate class received an entrance scholarship.

Award*	Value*	Additional Criteria
Excellence Scholarship	\$1,000 – \$2,000	90-94.9% Award Average
Principal’s Scholarship	\$4,000 – \$6,000	95%+ Award Average
Senator Frank Carrel	\$5,000 X 4 years	94% Award Average, Quebec residents only – GPA of 3.5+ to renew.

Awards for Indigenous students

Queen’s offers both merit and need-based awards to Indigenous students who self-identify when applying to Queen’s. To be eligible for any of our need-based awards, you must self-identify on the Queen’s Admission Bursary application.

Queen’s First Generation Awards

Queen’s offers both merit and need-based awards to students who self-identify as First Generation (the first in their family attending post-secondary) when applying to Queen’s. To be eligible for any of our need-based first generation awards, you must self-identify on the Queen’s Admission Bursary application.

* Values shown for admission scholarships were in effect at time of publication.

• Queen’s University reserves the right to revise or withdraw any award without prior notice.

• Students will not receive more than one scholarship.

Major Admission Awards

About: Students who demonstrate superior academic ability, creative and original thinking, involvement in school or community activities, and proven leadership can apply for a Queen’s major admission award. Financial need is also a consideration for some of our major admission awards.

Need To Know

<p>1 Apply to Queen’s University through OUAC by mid November to access the online Major Admission Award application.</p>	<p>2 70+ Major Admission Awards available valued between \$36,000 - \$80,000 over 4 years.</p>	<p>3 Application deadline December 1st! Application is online in SOLUS.</p>
---	---	--

Award*	Value (over 4 years)*	Number Available*	Additional Criteria
Chancellor’s	\$36,000	50	school nomination
Bank of Montreal	\$40,000	3	financial need
Chernoff Family	\$48,000 – \$60,000	8 1	financial need, rural/remote financial need / resident of Quebec

* - Values shown for admission awards were in effect at time of publication.
 • Queen’s University reserves the right to revise or withdraw any award without prior notice.
 • Students will not receive more than one merit-based award.
 • Renewal conditions apply – see Policy section on Student Awards web site for details.

Admission Bursary

About: Queen's provides financial support to students in need through a range of programs. A Queen's admission bursary is a non-repayable award based on demonstrated financial need – not your grades. You can apply for a Queen's admission bursary right after you apply for admission to Queen's. We want you to know about your Queen's financial awards before you decide to accept your offer to Queen's.

Need To Know

1

Apply by February 15.

2

With just one application you can apply for all Queen's need-based admission bursaries.

3

Online Admission Bursary application is available in SOLUS.

Program	Value*
Arts and Science	up to \$3,500
Nursing	up to \$3,500
Engineering	up to \$5,500
Commerce	up to \$6,500
BISC First-Year	up to \$7,500

* - Values shown for admission bursaries were in effect at time of publication.

- Queen's University reserves the right to revise any award value without prior notice.

Government Student Assistance Programs

You may be eligible for student financial aid in the form of grants (money you do not have to repay) and loans (money you need to repay when you have completed your degree).

- Apply for government student financial aid through the province or territory you reside in (not the province where you plan to attend university)
- You must be a Canadian citizen, permanent resident of Canada, or a protected person
- You must demonstrate financial need
- Apply each year well in advance of the start of your studies

Ontario Student Assistance Program

OSAP is Ontario's government financial aid program to help Ontario students pay for college or university.

- You must be a resident of Ontario
- Apply each year as soon as the application is available
- Once you have applied for OSAP, you can get an estimate of the OSAP loans and grants you may be eligible to receive
- Refer to the OSAP website for updated details and deadlines for the upcoming academic year

Other Ways to Pay

Every student is unique, with unique financial backgrounds. Explore all your options to create a financial plan that works for you!

Earn While You Learn

Working part-time is an excellent opportunity for you to contribute to your financial plan, gain valuable work experience, and get involved!

There are lots of options! You might find a job with the Alma Mater Society (AMS), be a campus tour guide, or officiate intramural sports! Downtown Kingston is only minutes from campus, and there are many part-time opportunities to work in the Kingston community. Did you know that Kingston has the most restaurants per capita in all of Canada!

QUEEN'S WORK STUDY PROGRAM

Students with demonstrated financial need will receive priority to apply for certain part-time jobs available on campus. You can earn up to \$1,000 per term.

QUEEN'S SUMMER WORK EXPERIENCE PROGRAM (SWEP)

SWEP provides eligible Queen's undergraduate students with summer work experience.

Other Scholarships and Award Funding

Don't forget to check out other Queen's awards or external awards that you may need to apply for.

SCHULICH LEADER SCHOLARSHIPS

Queen's is proud to be a Canadian university partner of the Schulich Leader Scholarship program.

- Awarded to entrepreneurial-minded high school graduates enrolling in a Science, Technology, Engineering or Math (STEM) programs
- Valued at \$100,000 for engineering scholarships and \$80,000 for science, technology, and math scholarships over four years

Learn more: schulichleaders.com

OTHER QUEEN'S AWARDS

Queen's offers a range of other awards that are available upon completion of a separate application both on admission to Queen's and throughout your studies.

Learn more about other scholarships and awards at queensu.ca/studentawards

External Awards

External awards are offered by employers and organizations and often look at criteria other than academics such as athletics, extracurricular activities, leadership, community involvement, volunteer work, and areas of specialization. Some common places to look for external awards are your or your parents' employer or union, clubs or associations you may participate in, and national award programs. Do your research early. Application deadlines vary.

KEEP TRACK OF THE DATES 2019-20

As soon as we have your complete application (i.e. you have completed all the items on your SOLUS To-Do List), we will begin to assess your file for an admission decision. We will begin to make offers of admission beginning in early December and will continue to make admission decisions until mid-May.

2019

OCTOBER 1 Application opens. To apply, follow the steps on page 101.

NOVEMBER Apply as early as possible. Students applying for a Major Admission Award (MAA) should apply to Queen's as early as possible in order to access the online application for the MAA. It takes about a week to access your SOLUS Student Centre after you apply for admission to Queen's.

DECEMBER 1 Deadline to submit online Major Admission Award (MAA) application on SOLUS.

2020

FEBRUARY 1 Applications, changes or additions to applications are due at for all first-year programs, for all applicants.

FEBRUARY 1 **Recommended last date to submit the Personal Statement of Experience (PSE) and Supplementary Essay (if applicable).***

FEBRUARY 15 Recommended last date to submit current high school transcript including list of second semester courses (where applicable). Current Ontario high school students' grades will automatically be forwarded by their high school.

FEBRUARY 15 Recommended last day to submit an Admission Bursary application for all programs.

APRIL 30 Queen's receives Ontario high school grades from the Ontario Universities' Application Centre (OUAC).

* If you apply to Commerce, you will be required to submit an additional Supplementary Essay, due at the same time you submit your PSE.

2020

APRIL 30 Last day Queen's will accept documents in support of an application.

MAY 1 Deadline for response to offers of admission for students not attending high school in Ontario.*

MAY 15 All admission decisions complete at Queen's and posted on SOLUS.

JUNE 1 Deadline for response to offers of admission for students attending an Ontario high school. This is also the deadline for all students receiving an offer after May 1.*

JUNE 8 Deadline for residence application and deposit.

JULY 15 Final grades and confirmation of OSSD deadline for Ontario high school students.

AUGUST 1 Final transcript deadline for students not currently studying in an Ontario high school.

SEPTEMBER 1 Final transcript deadline for students studying the GCE curriculum.

SEPTEMBER 5 Pack your bags and travel to Kingston! It's Residence move-in day!

*Check your offer correspondence carefully for your response deadline date.

CONNECT WITH QUEEN'S

Campus Tours

EXPERIENCE QUEEN'S WITH A CURRENT STUDENT

- Learn why Queen's students have a passion for learning
